Dear Mr. Hennrich:

You may be justifiably proud to know that you are one of the officials whose excellent organization and direction were largely responsible for the admirable handling of the Espionage case involving Julius and Ethel Rosenberg.

The good judgment and decisiveness which marked your performance of your duties are most gratifying to me and have prompted me to let you know in this manner of my personal appreciation and commendation.

Sincerely yours,

SUBJECT: PERSONNEL CHANGES

In accordance with your request, I have given further consideration to the designation of an SAC for the Washington Field Office. The three names that I previously submitted to you I considered to be the best possible selections from the present field SAC staff. They were in the order of my selection, SAC J. C. Ellsworth of Oklahoma City, SAC James Earl Milner of New Orleans and SAC Joseph J. Casper of New Haven.

I have previously considered potentialities from the Dept of Government and had rejected them because four of the men considered presently occupy Grade GS-16 positions at the Dept of Government. All four have had previous experience as an SAC in the field. They are as follows:

## 1. FRANK C. HOLLOWAY, Director's Office

Mr. Holloway initially entered on duty as a Special Agent on June 7, 1937, and resigned effective May 17, 1946. He was reinstated on April 21, 1948 and is presently in Grade GS-16, \$12,000 per annum. He is 39 years of age, married and has two children. He has a Bachelor of Laws Degree. His offices of preference are Memphis, New Orleans and Birmingham. Prior to Mr. Holloway's resignation from the service, he served as Acting SAC at the office we formerly had at Jackson, Mississippi, from October 10, 1943 to February 7, 1944, when he was designated Acting SAC at Atlanta. On February 16, 1944 transferred to Cincinnati as SAC on April 9, 1945, which position he occupied until he resigned effective May 17, 1946. He resigned because of the impossibility of finding suitable living quarters in Cincinnati for his family and he no longer desired to be separated from them. Since being reinstated in the Bureau's service, in addition to serving in the Louisville and Los Angeles Offices, he served in Mr. Nichols' Office and has been assigned to your office since February 17, 1952. He has an excellent record in the Bureau's service although he was censured in April 1953 when he approved two memoranda which contained a number of glaring errors. There is attached a permanent brief of Mr. Holloway's file.

I believe Mr. Holloway has the qualifications and the ability to adequately discharge the position of SAC of the Washington Field Office.

## 2. EDMUND D. NASON, Training and Inspection Division

Mr. Nason entered on duty as a clerical employee on July 29, 1940 and was appointed to the position of Special Agent on July 14, 1941. He is presently in Grade GS-16, \$12,000 per annum. He is 38 years of age, married and has two children. He has a Bachelor of Commercial Science Degree. He has no office of preference. Mr. Nason served as ASAC at Richmond and was designated SAC at Savannah on September 30, 1948, where he remained until he was designated SAC at Miami on July 31, 1950. He was designated as #1 Man to Mr. Clogg on April 22, 1951. He was last censured on July 21, 1952 for the serious errors which existed in a memorandum which was submitted to the Director concerning an inspection of the Identification Division. There is attached a permanent brief of Mr. Nason's file.

I think in view of the fact Mr. Nason was successful in operating an office as large as the Miami Division, he should have no difficulty in functioning as SAC of the Washington Field Office.

## 3. LEO L. LAUGHLIN, Inspector in Charge of the Liaison Section, Domestic Intelligence Division.

Mr. Laughlin entered on duty as a Special Agent on December 2, 1935 and is presently in Grade GS-16, \$12,000 per annum. He is 42 years of age, married and has four children. He has Bachelor of Arts and Laws Degrees. He has no office of preference. He has served as ASAC at St. Paul and Baltimore and has served as SAC of the Providence Office from June 21, 1945 until October 15, 1945. Mr. Laughlin was last censured and placed on probation on May 13, 1953 as a result of the mishandling of [redacted] before a Congressional Committee. Mr. Laughlin was removed from probation on July 16, 1953. There is attached a permanent brief of Mr. Laughlin's file.

b7D

I think Mr. Laughlin has the ability and personal qualifications to adequately handle the position of SAC in the Washington Field Office.

## 4. CARL E. HENNRICH, Inspector in Charge of the Espionage Section, Domestic Intelligence Division.

Mr. Hennrich entered on duty as a clerical employee February 3, 1934 and was appointed to the position of Special Agent on October 7, 1935. He is presently in Grade GS-16, \$12,000 per annum. He is 44 years of age, married and has two children. He has a Bachelor of Laws Degree. His office of preference is Washington D. C. He served as SAC at Richmond, Norfolk and Boston and for a considerable period of time as ASAC of the Washington Field Office. He was relieved of his duties as SAC while serving in Boston Division when he was transferred to Washington, D. C.

at his own request due to his wife's mental illness. His file reflects he has indicated he is available for any assignment the Bureau desired to give him. Since February 1953 he has been censured four times for the mishandling of matters in the Espionage Section of the Domestic Intelligence Division. There is attached a permanent brief of his file.

I feel that Mr. Henrich has the ability to adequately handle the duties of SAC of the Washington Field Office.

I have given consideration to one other possibility and that is the inspection staff of the Training and Inspection Division. Inspector J. H. Williams appears to have potentialities for handling the job of SAC of the Washington Field Office.

Mr. Williams entered on duty as a Special Agent on November 1, 1938 and is presently in Grade GS-15 \$10,800 per annum. He is 41 years of age and divorced. He has Bachelor of Arts and Laws Degrees. He has no office of preference. He has served as ASAC at Knoxville and Norfolk in addition to Detroit and as SAC at Mobile and Anchorage. He has been an Inspector in the Training and Inspection Division since December 10, 1952. Mr. Williams has an excellent record in the Bureau's service and I think that he has the capabilities of discharging the responsibilities of SAC in the Washington Field Office. There is attached a permanent brief of his file.

#### RECOMMENDATION

I think that SAC J. E. Milnes of the New Orleans Division is an excellent prospect for the position of SAC of the Washington Field Office and I recommend he be favorably considered for that position.

## OFFICE MEMORANDUM . UNITED STATES GOVERNMENT

TO : MR. D. M. LADD

DATE: September 9, 1953

FROM : MR. A. H. BELMONT

SUBJECT: SUSPECTED ESPIONAGE,  
 FT. MONMOUTH, NEW JERSEY, and  
 FEDERAL TELECOMMUNICATIONS LABORATORIES,  
 NOTLEY, NEW JERSEY

There is attached a memorandum dated September 9, 1953 setting forth answers to the Director's inquiries concerning the handling of the investigation of this matter.

The investigation of this case was supervised in Newark by Supervisor [redacted] and SAC Hostetter. At the Bureau, the case was supervised by W. Arthur Aull.

RECOMMENDATIONS:

(1) It is recommended that a letter of censure be directed to SAC Hostetter for his failure in supervising this matter in the Newark Office and particularly for his failure to insure that the Army promptly handle the Photostating work which they agreed to do and, failing in this, to more promptly have made arrangements for part or all of the work to be handled by our New York Office. It is not recommended that administrative action be taken against Supervisor [redacted] of the Newark Office in view of the fact that he kept the SAC advised of the status of this matter, consulted with the SAC, and the SAC passed on and concurred in the action taken by [redacted].

"I agree" 9-9, Tolson "I agree" F. H. 9-9 DIRECTORS NOTATION: "OK." H.

(2) It is recommended that a letter of censure be directed to Supervisor W. Arthur Aull, to Section Chief William A. Branigan, to Inspector C. E. Hennrich, and to myself. In the supervision of this matter at the Seat of Government, we should have realized that this project would have to be completed and would require the expenditure of a certain amount of manpower and that the faster the Newark Office got on to this project, the less chance there would be of a prolonged delinquency in the handling of the case. We should have insisted on Newark's demanding of the Army immediate action in Photostating the material or that we make other arrangements to have it done, in spite of the economies involved, so that the project could have been completed.

"I agree" Tolson. "I agree" F.H. 9-9. DIRECTORS NOTATION: "IT IS CERTAINLY REGRETTABLE THAT I HAVE TO GO TO SUCH EXTREMES AS TO GET RECOMMENDATIONS FOR DISCIPLINARY ACTION WHEN THERE HAVE BEEN SUCH GLARING INEPTNESS & MISHANDLING OF A PROJECT." H.

PERSONAL AND CONFIDENTIAL

Mr. Carl E. Hennrich  
Federal Bureau of Investigation  
Washington, D. C.

Dear Mr. Hennrich:

My attention has been called to the gross mishandling of the investigation concerning suspected espionage at Fort Monmouth, New Jersey, and at the Federal Telecommunications Laboratories, Nutley, New Jersey, both at the Seat of Government and in the Newark Division. This investigation involved a project calling for the New York Division in conjunction with the Department of the Army to photostat a large number of dossiers of individuals at these two installations and for the submission of summary reports on these individuals by the Newark Division. Although this project was instituted as a result of Bureau instructions issued on June 9, 1953, it still was not completed by the middle of September, 1953. As Inspector in charge of the Espionage - Foreign Intelligence Branch of the Domestic Intelligence Division you were responsible for the supervision afforded this matter by your subordinates in the Espionage Section and you should have seen to it that this matter was more closely followed in the Newark Division to insure that appropriate arrangements were made when the Army appeared to be falling short in its obligation to photostat these dossiers in order that this project could be completed within a reasonable time.

I must insist that immediate measures be adopted by you to prevent any recurrence of such undue delay in the completion of a project for which you are ultimately responsible. It is your duty to make certain that your subordinates carry out their responsibilities in a prompt and efficient manner and the delinquency in this case indicates that you have failed to do this.

Mr. Carl E. Hennrich

Dear Mr. Hennrich:

The Bureau has reviewed all of the facts developed during an inquiry into the handling of certain information which was received by this Bureau from one of the defense agencies to the effect that a young scientist who had defected from the Soviet Zone of Germany had claimed to have seen in the Soviet Zone various confidential data which allegedly had been secured from United States defense installations and you were most derelict in failing to take appropriate action in order to see to it that instructions were issued to have this defector interviewed by a Bureau representative. In view of the nature of the information in question it should have been readily apparent that such a step should be taken.

The Bureau must insist that in carrying out your duties as Inspector in Charge of the Espionage Foreign Intelligence Branch of the Domestic Intelligence Division, you closely follow on matters of such importance as this and make certain that no investigative steps are overlooked. By doing this you will avoid any further basis for criticism of this nature.

Very truly yours,

### X-RAY-Chest, PA CHEST & ELBOWS 11-3-53

Irregular areas of calcification noted in both hilar regions. Rt. costo-phrenic angle is blunted due to old pleural lesions. In the rt. lung apex a homogenous area of increase density is noted. Also suggestion of fibrous strands extending from rt. hilar region into apex. Findings suggesting minimable pulmonary tuberculosis. In the left apex there appears to be some pleural thickening. Conc: Minimal pulmonary tuberculosis. Suggest Lordotic view of the chest to better demonstrate this area. R. B. BRIDENBAUGH

### X-RAY- LORDOTIC VIEW OF CHEST- 11-9-53

Apical lordotic view projection of the chest reveals that the previously described area of increased density in the right lung apex undoubtedly represents residual pleural thickening from an old healed tuberculosis that process. There is def. deviation of the trachea to rt. indicating that considerable amt. of fibrosis has taken place in this region. No evidence to suggest active lesion at this time. Repeat exam in 3-4 wks suggested.

Pt. to return 4 weeks for repeat chest x-ray.

Under date of October 20, 1953, a memorandum was submitted setting forth the results of the review of the above-captioned cases made by Inspector J. E. Nugent and Supervisor Frank E. Strong. Based on the contents of that memorandum, letters of censure were directed to William A. Branigan, Chief of the Espionage Section, Inspector Carl E. Hennrich and Assistant Director J. H. Belmont. The letters of censure for Special Agent Branigan and Inspector Hennrich were based on their failure to assure that proper efforts had been made to have a defector in Germany interviewed by a Bureau representative. These cases were supervised by Special Agent W. Arthur Aull. At the time that memorandum was prepared Mr. Aull was on emergency annual leave because of the death of his mother and to handle business affairs of his mother's estate. Special Agent Aull has now returned to duty and he has submitted the following comments concerning these cases.

"It is noted that the defector's statements have been discounted on three occasions. (1) In the original report from the Air Force, when the Air Force stated that some of the information furnished by the defector was not feasible; (2) By investigation conducted by the Bureau at both Fort Monmouth and Oak Ridge, Tennessee, and (3) by the Air Force reinterview and resulting statement from the defector that he had fabricated the information. The Air Force recommended that further investigation in the case be discontinued. It now appears, however, that as a precautionary step our instructions should have been issued to our Liaison Representative to interview defector although such interview did not appear logical at that time in view of the strong indication that the defector had fabricated the information."

these comments are substantially the same as submitted by Assistant Director Belmont for the Domestic Intelligence Division in the memorandum of October 20, 1953.

In regard to the defector, it should be noted that he has since been interviewed by the Bureau's representative and has admitted falsifying information that he had previously furnished to OSI.

RECOMMENDATION

It is recommended that Supervisor T. Arthur Aull be censured for his failure to make arrangements to have the defector interviewed by a Bureau representative. Brief of Special Agent Aull is attached.

Federal Bureau of Investigation  
Washington, D. C.

Dear Mr. Hennrich:

On February 3, 1954, you will complete your twentieth year of service in the Federal Bureau of Investigation, and I want to extend my congratulations on your Anniversary.

I want you to know that I deeply appreciate your continued loyalty and devotion to the Bureau. During the past twenty years you have seen the Bureau grow from a comparatively small organization to one of the greatest law enforcement agencies in the world. You may be justly proud of your contributions to this growth. Your diligent efforts and personal sacrifices have not been in vain, but rather have played a part in building the Bureau to its present high position. It is indeed reassuring to know I have men such as you upon whom I can rely.

It is with a deep feeling of gratification and appreciation that I take pleasure in presenting to you the enclosed Twenty-Year Service Award Key. I hope we will continue to have the benefit of your valuable talents for years to come.

With best wishes and kind regards,

Sincerely,

 FROM: MR. C. F. HENNSICH  
 SUBJECT: JAY LOVESTONE  
 ESPIONAGE - R and IS

Dr. Spencer Miller, Assistant Secretary of Labor, called the Director's office this afternoon, February 23, and thereafter asked that I return his call on his private phone, which is National 8-3506.

I returned his call and he advised that he wanted to talk to the Director to tell him of a long talk Miller had had with Governor Edison over the week-end. He said Governor Edison was very much interested in an independent study of influences at work in connection with the recognition of Red China. He said Edison painted an elaborate picture. I asked him just how this tied in with the Lovestone matter and Miller said that this whole Red China thing is terrific in its scope; that there are millions of petitions being made against the admission of Red China; that influences formerly in the State Department - here Miller broke off and referred to Toledo articles having to do with Red China; then he said two or three people began to evolve and that certain persons feel that the activities of persons in favor of Red China run into the Lattimore picture; that the information must run into high places. He said he would prefer that we get the whole picture from Governor Edison.

The second thing Dir. Miller wanted to talk about was that another man, not identified, formerly an Ambassador, had told him that Carmel Offie definitely had a close and intimate interconnection with Jay Lovestone. Dr. Miller said he, himself, had found out that Offie has been in the Labor Department Building during the past six months from time to time eating in the dining room and, therefore, he is still in the labor picture.

Dr. Miller referred to an article in the "Time-Herald" for February 22, which indicated that Lovestone had been invited to lecture at the War College. Miller thought this was significant.

Miller said the third thing he wanted to report was that Philip Dulaney of the AF of L had informed him of a definite tie-up of Lovestone, Offie, and Irving Brown in that they had been to Miami Beach together and that they had met an individual upon arriving at Miami Beach which was significant. I asked him who the individual

RE: JAY LOVSTONE

was and what was the significances, and he said the indivisual was one Rumaldi, South American representative of the AF of L, who works closely with Dubinsky and Lovestone. Dr. Miller said that he realized that the above information was not important in content but that it fits into a jigsaw puzzle, and that he wanted to divest himself of all information as it comes to his attention.

He then said that a member of the Miners' Union had told him that in 1945 a letter was written from President Green of the AF of L to the then Secretary of State, James Byrnes, asking for a list of persons transferred from the State Department to the United Nations, but that this letter was never answered; it was subsequently found out that some of the persons transferred from the State Department were Communists and were recently dismissed from the UN. I asked Dr. Miller if this tied in with the Lovestone matter and he said there was no specific tie-in but it would be interesting to run down Green's letter to see what it was all about.

During my conversation with Dr. Miller on February 18, he had inquired as to whether we had an agent in the Department of Labor in an undercover capacity and I told him we did not. He inquired about this again today and I again told him we did not have an Agent in the Department of Labor.

Dr. Miller then said that he had one question which he wanted to ask and which his lawyer had told him to ask and that was how long it would take the FBI to conduct its investigation of Lovestone based upon leads and information furnished by Dr. Miller. I told Dr. Miller that I could not and would not answer this question since it was obviously a question that could not be answered and would depend upon any inquiries necessary as a result of an analysis of all the facts. He said he appreciated the frankness of my reply and that he might ask other questions in the future and he hoped I would be as frank.

At the completion of the conversation I again pointed out to Dr. Miller that any investigation to be conducted in the Lovestone matter will be handled by the FBI and that we do not want him conducting investigation concerning this matter. He said he thoroughly understood and pointed out that I had spoken to him about this on Saturday.

Directors Notations

Hennrich is handling this difficult and trying matter excellently.

H.

mo for Mr. Belmont

RE: JAY LOVESTONE

OBSERVATION:

I get the very definite impression that Dr. Miller is trying to utilize the fact that he is furnishing information to the FBI to further his own interests in remaining with the Labor Department. He will probably continue to deluge us with miscellaneous trivia which he can pick up by way of gossip and conversations with labor representatives. I would suggest that we request him to submit future information in writing except that he would likely use such a request as a basis for spreading word around that he is being requested to submit investigative reports to the FBI.

RECOMMENDATIONS:

I see no basis for investigation regarding this information furnished by Miller. We are preparing memoranda for the Attorney General and Governor Adams furnishing this additional data.

## NARRATIVE COMMENTS

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION.  
UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

## RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).  
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).  
- Unsatisfactory.  
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

Re: CARL E. HENNRICH  
INSPECTOR  
EOD BUREAU: Clerk - 2/3/34  
Agent - 10/7/35  
GS-16; \$12,200

At the start of the rating period Mr. Hennrich served as Inspector in charge of the Security Branch of the Domestic Intelligence Division which handled the Internal Security and Espionage Sections. Since July 27, 1953, he has been Inspector in charge of the Espionage-Foreign Intelligence Branch of the Division. In these capacities, Mr. Hennrich supervised the entire investigative work of the Bureau in the security field with the exception of loyalty matters.

(In the absence of the Assistant Director, Mr. Hennrich takes charge of the Domestic Intelligence Division. He has produced excellent results in this capacity. He is thoroughly experienced, knows Bureau policy and meets his responsibilities head on. He works best under pressure and consistently shows above average judgment in making the numerous decisions arising from the daily work under his supervision and during his contacts with the field when many difficult problems are posed by the field for Bureau advice.)

Mr. Hennrich was criticized on April 10, 1953, for not making sure that his subordinates followed up on a lead in the Joseph Woodrow Weinberg case; again on May 13, 1953, for failing to see that personnel of the Espionage Section followed through on information in the Thad Mason case; on October 23, 1953, for not seeing to it that instructions were issued to have a defector interviewed; and, on September 14, 1953, for not seeing to it that the Espionage Section followed the Fort Monmouth investigation more closely.

Mr. Hennrich was commended by the Director on June 25, 1953, for his excellent performance in the Julius and Ethel Rosenberg case. (Mr. Hennrich is an aggressive, hard-driving executive, who insists on results and who has demonstrated time and again that he is capable of concise, direct action based on prompt and proper analysis of problems arising in his jurisdiction. He is capable of further advancement in the Bureau.) He is rated SATISFACTORY.

The chest examination again reveals the infiltration in the upper right lung field. The fibrotic character of this infiltrate is again noted and it is unchanged from the previous examinations. This more strongly indicates inactivity. The calcified hilar regions are again visualized and are also unchanged.

ASSISTANT DIRECTOR BELMONT:

Mr. Hennrich is Inspector in charge of the Espionage-Foreign Intelligence Branch of this Division. In my absence he takes charge of the Division. He is thoroughly experienced, knows Bureau policy, and meets his responsibilities head on. He works best under pressure and shows above-average judgment.

During the past year, Mr. Hennrich was censured four times by letter for incidents occurring in his branch and for not following up to see that personnel in the branch handled certain matters. He was commended in June, 1953, for his excellent performance in the Rosenberg case.

Hennrich is an aggressive, hard-working executive, who insists on results, and has shown, time and again, that he is capable of concise, direct action, based on prompt and proper analysis of problems arising under his jurisdiction.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. Boardman

DATE: July 14, 1954

STRATEGIC INTELLIGENCE

By routing slip dated July 14 the Director referred to Mr. Boardman's memorandum of July 8 and Mr. Belmont's memorandum of July 9, both of which indicated the Director would be advised of results of July 9 meeting with Mr. Coyne. The Director commented: "I have not been advised; nor have I received an analysis of final report of Planning Com. Why not? H."

You will recall that following the meeting with Pat Coyne on Friday, July 9, you orally advised the Director that the Planning Board's tentative recommendations drafted by Mr. Coyne were practically the same except for Recommendation No. 1 which stated that restrictions as to photographing and sketching imposed upon Soviet representatives in the United States would be "comparable to" the restrictions placed upon foreign representatives in the USSR on February 11, 1954.

You will recall that you called Pat Coyne and he agreed to the interpretation to be placed on the phrase "comparable to" to include materials which are not available to the United States representatives in the USSR. The draft of the Planning Board's tentative recommendations as prepared by Coyne on July 9 was included in the summary memorandum submitted to the Director on Saturday, July 10, 1954.

The final draft of the recommendations of the Planning Board was received in the Bureau on Monday afternoon, July 12. Photostatic copies were sent to Mr. Turner who was handling any revisions for the Director's memorandum so that this document could be included. These Photostats were received by Mr. Turner Monday evening, July 12. On July 13, in addition

CEH:ubs

to preparing this document as an exhibit he prepared a brief analysis of the Planning Board's recommendations together with other revised pages, totaling twelve in number. These revised pages were completed at approximately 10:00 P.M. on July 13 and were available when you called on the morning of July 14. A cover memorandum was being dictated at that time.

On July 13 Liaison Agent Sanders prepared a three-and-one-quarter-page memorandum analyzing the final NSC Planning Board's recommendations and recommended that an attached IIC letter be forwarded to the Executive Secretary of the NSC. He had previously obtained the approval of military members of IIC of this letter. On your instructions this memorandum was redictated in a one-page memorandum and was resubmitted on July 13, again attaching a revised IIC letter to NSC.

As you know, it was considered unnecessary to include certain of the revised pages which Mr. Turner had prepared for inclusion in the summary memorandum and this involved considerable retyping and re-editing on the morning of July 14, and this further delayed the information reaching the Director to be included in the summary memorandum.

Supervisor Turner has stated that in preparing the comments on the analysis of the final recommendations of the NSC Planning Board, he was following necessarily the analysis prepared by Mr. Sanders, a tickler copy of which he had received, and he did not feel it desirable to include this analysis in the summary in final form until after approval of this analysis by you, and the IIC letter to NSC was approved by you.

ACTION:

This is in answer to the Director's inquiry and it is regretted that these matters were not handled in less time.

This memorandum pertains to the Director's comment, "I have not been advised; nor have I received an analysis of final report of Planning Com. Why not?"

Attached is a memorandum dated 7/14/54 from Mr. Hennrich to me, setting forth explanations concerning the handling of this matter.

There is no question but that it should not have been necessary for you to have had to follow me up on this matter. Though the necessary pages for insertion in your brief were being prepared, and the necessary analysis was being made, these matters were proceeding at a snail's pace. Further, it was necessary for me to request Special Agent E. S. Sanders to re-dictate an analysis memorandum which, when initially prepared, was in my opinion too involved and did not pertain strictly to the analysis requested. Secondly, Special Agent E. T. Turner did not handle the preparation of the revised pages as expeditiously as should have been expected, and as Mr. Hennrich was instructed by me. Thirdly, Mr. Hennrich should have more carefully and closely followed this entire situation to insure that the necessary analysis and insertions in your memorandum were completed no later than the evening of 7/13/54.

So far as I am concerned, I did a very bungling job in following through to personally insure that these matters were given more expedite attention.

## RECOMMENDATION:

I recommend that Messrs. Hennrich, Sanders, Turner and myself be given severe letters of censure for having failed to expedite the submission of material in an obviously important and expedite matter.

SUBJECT:

Inspector Carl Hennrich now on annual leave advised he has just moved into a new house at 5529 North 18th Street, Arlington, Virginia. He has had his old telephone number moved to his new residence and it remains the same, Jackson 8-2957. Hennrich found out today, however, that his telephone is now on a party line. He, of course, will require private line service. Hennrich was advised to immediately contact the phone office in Arlington and make an official request for private line service. Mr. Newman in the Administrative Division has been requested to see that a letter over the Director's signature is sent to the telephone company requesting that Hennrich be given a priority for private line service. Hennrich was also advised that normally a letter from the Bureau produces the desired results, but that if at the expiration of his annual leave he still has not had private line service installed, to let us know in my office and we would then take the matter up with higher company officials.

As you know, Mr. Belmont represented the IIC at the National Security Council (NSC) meeting held on November 4, 1954, and presented the IIC comments concerning the report which had been submitted to the NSC by the subcommittee considering the capability of the USSR to inflict injury upon the United States.

Special Agent Edward S. Sanders was contacted by the NSC Planning Board meeting on the same date by James S. Lay, the Executive Secretary of the NSC at which time Lay advised that in his opinion Mr. Belmont had done an outstanding job in presenting the IIC views and that he, Lay, had heard many complimentary remarks upon Mr. Belmont's presentation. Lay advised that in his opinion Belmont had made the points which the IIC had in mind and that those present at the NSC meeting could readily see the IIC position and understand it.

Immediately after the NSC meeting, Pat Coyne advised Sanders that Belmont had done an excellent job in the presentation and that the internal security committees' position had been well presented and solidified by Mr. Belmont.

## RECOMMENDATION:

I thought you would be interested in the remarks made in this connection by Lay and Coyne.

ADDENDUM: (11/5/54) I think Belmont should be commended for the excellent presentation he apparently made before the NSC. I also have personal knowledge of the fact that Inspector G. E. Hennrich and Supervisor Lishy Whitson very ably represented and handled the IIC representation in the subcommittee discussions and should also be commended.

Mr. Carl E. Hennrich  
Federal Bureau of Investigation  
Washington, D. C.

Dear Mr. Hennrich:

It has come to the attention of the Bureau that during January, 1955, an informant furnished information of a highly confidential nature pertaining to the national security of the United States, and after this data had been received in the Espionage Section of the Domestic Intelligence Division it was not promptly disseminated to the appropriate interested Government agencies. The Bureau is aware that there was some question concerning the reliability of the informant in this instance; nevertheless, due to the extremely important nature of this information it should have been promptly disseminated together with a suitable qualification as to the reliability of the source of it.

It is evident that the Espionage Section did not properly function in this instance so that the Bureau could efficiently discharge its responsibilities in connection with dissemination of information concerning the national security. As Inspector in charge of the Espionage - Central Research Branch of the Domestic Intelligence Division you will be expected to take proper measures to insure that there will be no repetition of such a dereliction on the part of personnel under your supervision.

Very truly yours,

Dear Mr. Hennrich:

The Bureau has carefully considered the facts developed relative to the handling of an important phase of the Security Matter case involving [redacted] in the Domestic Intelligence Division and it is apparent you did not adequately discharge your responsibilities in regard to this matter. Specifically, you approved a memorandum to the Department dated March 24, 1955, in which a position was taken contrary to fundamental Bureau policy. Your failure to detect the weakness in this memorandum and have it corrected was most serious.

In accordance with your request that explanations be submitted as to why there was included in a proposed memorandum to Mr. Tompkins of the Department in this matter a statement that the Bureau will make no objection in the event the Department decides to approve the release of the balance of the Zwicker memorandum and decides thereby to disclose material from the report of SA Gordon to the extent necessary to approve this release, memoranda have been obtained from Supervisor Mansfield and Section Chief Baumgardner regarding this matter and are attached. It is noted that both Mansfield and Baumgardner point out that in the preparation of the memorandum the objective in mind was to keep the Bureau from becoming involved in this controversial matter and that the statement was included with the thought in mind that it would keep the Department from placing responsibility for any action in declining to approve the release of material on the FBI. Both Mansfield and Baumgardner realize that inclusion of this statement was in error.

I approved the memorandum in which the statement was included. It should not have been included. I have no excuse to offer. I should have detected it.

Pursuant to your request, there are attached memoranda of explanation from Supervisor Mansfield, Section Chief Baumgardner, and Inspector Hennrich, relative to the inclusion, in a proposed memorandum to Mr. Tompkins of the Department, of a statement that the Bureau would make no objection in the event the Department decided to approve the release of the balance of the Zwicker memorandum.

Both Baumgardner and Mansfield point out that after deliberation they prepared the memorandum with the objective in mind of keeping the Bureau from becoming involved in this controversial matter, and that the statement was included with the thought that it would keep the Department from placing responsibility on the FBI for any action in declining to approve the release of the material in question. They both now state that it is apparent, the memorandum was not properly worded.

Mr. Hennrich advises it should not have been included and he should have detected it.

Relative to the preparation of the memorandum dated 3/24/55, from Belmont to Boardman, which attached the memorandum to Tompkins, I received a call from Mrs. Fields in the Director's office, advising that the Director had had a telephone conversation with Deputy AG Rogers on instant matter and was desirous of ascertaining the source of the information appearing in the Zwicker memorandum. I told Mrs. Fields I would make immediate inquiry and upon talking with Hennrich was advised that a memorandum on the matter was being prepared and would be completed in approximately 15 minutes. I so advised Mrs. Fields.

Thereafter Mr. Baumgardner personally brought up the cover memorandum and the memorandum to Tompkins. After reading the cover I felt the memorandum was incomplete and caused an asterisk addendum to be placed on page 3 and, in addition, dictated an addendum. I felt the memorandum, with the addenda, was rather chopped up, and checked with Mrs. Fields as to the urgency of it. After talking with her I decided it should be sent through notwithstanding.

It is obvious that my concern was directed too much to the cover memorandum and not enough to the attachment. I should have

detected the impropriety of the wording of the memorandum to Tompkins. I have no excuse for my failure in this regard. Also, this memorandum should have been routed through you. I have checked with Mr. Baumgardner on this point and am advised that immediately after my conversation with the Director's office, I told him to get the memorandum to the Director's office at once.

Expeditious handling is very frequently essential and obviously is no justification for my not taking sufficient time to see that things are properly handled and properly routed. I will avoid such action in the future.

**RECOMMENDATION:**

I recommend that Mansfield be censured for improper preparation of the cover and memorandum to the Department, and that Baumgardner, Hennrich and myself be censured for improper handling of the matter thereafter.

for fundamental Bureau

~~PERSONAL AND CONFIDENTIAL~~

Mr. Carl E. Hennrich  
Federal Bureau of Investigation  
Washington, D. C.

Dear Mr. Hennrich:

The Bureau has recently noted serious weaknesses in the performance of personnel in the Espionage Section for which you have over-all responsibility. It has been observed that in four different Internal Security cases, investigative reports received from the field contained serious errors and employees in the Espionage Section failed to request explanations and recommendations regarding personnel responsible for these errors although existing Bureau instructions require that this be done. Undue expense and unnecessary correspondence resulted from this disregard of Bureau instructions by employees under your supervision.

As Inspector in Charge of the Espionage Central Research Branch of the Domestic Intelligence Division, it was your responsibility to have insured that the personnel in the Espionage Section were performing their duties adequately and in accordance with existing Bureau instructions. It is evident that you have not properly discharged your supervisory responsibilities in this regard. It will be incumbent upon you to take immediate steps to insure that delinquencies of this nature do not recur so that it will not be necessary for the Bureau to again point out to you such shortcomings.

BACKGROUND: Separate memoranda of R. T. Harbo to Mr. Tolson have been submitted covering weaknesses upon the part of the field and the SOG for not following existing Bureau instructions governing the transmittal of awarded pages of reports. Four of these cases involved personnel of the Espionage Section of the Domestic Intelligence Division. This section is headed by Mr. Branigan, and is one of the branches of the Domestic Intelligence Division under the over-all control of Inspector Hennrich. Copies of each of the latter memoranda were designated for the personnel files of Messrs. Branigan and Hennrich. Each of said memoranda stated that recommendations would be submitted separately concerning their responsibility in these matters. The purpose of this memorandum is to submit said recommendations.

WEAKNESSES IN SURVEILLANCES IN THE  
NEW YORK OFFICE

Although Inspector B. C. Brown will, during the course of the New York inspection, make a detailed analysis as to the handling of past surveillances and will set up appropriate safeguards in the event surveillances should be resumed in the future, he wishes to point out at this time certain weaknesses in the handling of surveillances in the New York Office.

Primarily, these weaknesses may be attributed to incompetent supervision, lack of initiative on the part of the supervisory staff, as well as the Agents working on surveillances, lack of discreetness, such as parking the same vehicles in the same place on repeated occasions and inadequate training. The principal weaknesses are:

1. Inadequate evaluation as to manpower needs. New York Office has been following a standard practice of assigning 3 Agents in one automobile to the surveillance of each subject. Although there are occasional departures from this standard practice, they are few. Consequently, many surveillances have either too few Agents involved or too many Agents involved or not enough automobiles on hand to permit flexibility. The net result is lack of security, lack of discreetness and inadequate use of manpower. Responsibility is fixed on SAC Kelly, ASAC Archessault, Supervisor Simmons and Supervisor O'Donnell, the first two of whom have been recommended for removal and the latter two have been separately recommended for dismissal with prejudice. Supervisor Thomas G. Spencer is also responsible and it is being separately recommended that he be removed.
2. Cars should be rotated between surveillances; the present practice is to have a specific car and specific Agents in that car follow a subject all day long or for several days in a row, whereas if initiative had been used, Agents who have been following one subject could be shifted by radio to take up the surveillance on another subject as conditions warrant during the same day to provide constant change of vehicles and surveilling personnel.

[redacted] Inspector considers this delay to be unreasonable and indicative of lethargy of the type which has helped make New York surveillances indiscreet.

4. Lack of initiative, both on the part of the supervisory personnel and on the part of the Agents participating in surveillances, has permitted Agents to use the same automobiles again and again. For example, during the surveillance [redacted] the same black car was used on three consecutive days and two blue Fords were used on the remaining two days of the week. No effort has been made to rotate the vehicles at frequent intervals in order to provide constant change and prevent familiarity of subjects with FBI cars.

b7E

5. Of the 27 cars used [redacted] in New York, 26 are Fords; 9 are black and 7 are dark blue. Nearly all have spotlights and outside radio antennae. No office system exists for either rotating cars or making certain that cars used do not have the same outward physical characteristics, even though there are plenty of cars of varying types assigned to the New York Office and rotation could be assured.

6. The lack of initiative of the supervisory staff in permitting Agents to do as they wish and the lack of initiative of Agents are illustrated by the fact that Agents have been parking in the same place on the same surveillances on repeated work shifts on repeated days. For example, Agents admit in the [redacted] parking on five consecutive workdays in the same parking place [redacted] When the evening

Memorandum to Mr. Tolson  
Re: Weaknesses in Surveillances in  
the New York Office

shift relieved the day shift they also parked in the same spot four consecutive nights. The surveilling team assigned to [redacted] parked in the identical parking space three consecutive days commencing April 18, and used the same car on four consecutive days commencing April 19. Although the SAC and the Supervisors now consider this to be indiscreet, the Inspector considers it to be stupid and a practice which could not help but jeopardize surveillances. It is noted that [redacted] who made the greatest issue out of having detected surveillances.

7. Although there is an office rule prohibiting Agents from bringing surveillance cars into the vicinity of the field office for parking, this rule has been violated with impunity. Two of the cars complained about [redacted] were parked in the immediate vicinity of the field office on the morning of 4/22/55. It is obvious that the Agents disregarded the office regulation and exhibited little concern for the security of FBI surveillances. Administrative action as to each of these Agents will be separately recommended.

b7E

8. New York Supervisors exercised no control over Agents parking near the office, even though radio logs reviewed during the inspection indicate a number of violations involving surveillance cars parked immediately in the vicinity of the FBI field office. Administrative action is being recommended separately as to supervisory and Agent personnel.

9. There has been a lack of interest on the part of Agents in obtaining those facts which they should know in order to conduct surveillances with the greatest degree of security. For example, five Agents assigned to [redacted] surveillances were unaware of the location of the subject's apartment in residence buildings and, therefore, had no way of knowing whether the subjects could countersurveillance them from their apartments or whether they should park out front, on the side, or in back of the building. Administrative action is being separately recommended as to each of these Agents.

b7E

10. Supervisory staff exhibited little concern as to whether Agents had sufficient background knowledge in order to properly conduct surveillances. They considered it the responsibility of the individual Agent to obtain whatever information of background type was necessary for the proper handling of the surveillance and did not check to see that Agents were properly equipped to do a thorough, discreet and secure surveillance job.

Memorandum to Mr. Tolson  
Re: Weaknesses in Surveillances in  
the New York

11. Agents engaged on surveillances feel that one-day indoctrination course given them in surveillance work is insufficient. The Agents, however, have not registered with the New York Office their feeling in this regard and were apparently content to continue on surveillance work even though not properly trained.

12. The supervisory staff of the New York Office took no steps to expand or improve the indoctrination training course in surveillance work. The attitude of the supervisory staff is shown by the fact that the SAC, ASAC Marchessault and Supervisors Spencer, Simmons and O'Donnell felt that if any Agent felt he needed more indoctrination or information than could be provided in one day, he should feel free to ask for further information at squad conferences or in consultation with supervisory officials. The Inspector feels that the lethargy of the supervisory staff in failing to properly train surveillance Agents is in great measure responsible for the atrocious situation which has resulted in complaints by [redacted] and that administrative action of a most severe type should be taken. Inspector feels that a five-day surveillance training program should be set up similar to that successfully used for the past four years in the Washington Field Office.

13. Agents in many instances have been content to remain seated in a parked Bureau car for hours at a time in a residential neighborhood and customarily three such Agents would be so engaged. This made them conspicuous. Agents should have split up and moved around sufficiently in order to avoid the familiar sight of three Agents in a parked black or blue car resting for hours in the vicinity of the subject's residence. b7E

14. Although the SAC has made several checks [redacted] his checks of moving surveillances have been inadequate. The same thing is true as to ASAC Marchessault and the supervisory staff.

RECOMMENDATIONS:

1. No action as to SAC Kelly, ASAC Marchessault and Supervisors Simmons and O'Donnell inasmuch as those recommendations have been submitted separately.

2. Thomas G. Spencer, Grade GS-14, EOD 4/18/38,  
Supervisor of Section 1 (Satellite and Miscellaneous  
Espionage).....

Explanations being obtained and separate recommendation  
will be made as to administrative action.

3. The Inspector bring to the attention of those Agents  
who have in the past engaged in surveillances in the  
New York Office the delinquencies discovered; the lack  
of initiative and ingenuity exhibited by those Agents;  
their irresponsible handling of certain aspects of  
surveillance work and remind them that their derelictions  
have been a blot on the record of the FBI and have  
resulted in a complaint by a foreign, friendly power.

Messrs. Boardman, Harbo and Mohr agree.

4. If surveillances should later be reinstituted, the  
Inspector hold a meeting of all surveillance Agents  
to make certain that they are properly aware of their  
responsibilities and the fashion in which they should  
perform.

Messrs. Boardman, Harbo and Mohr agree.

Each surveillance Agent be interviewed by the Inspection Staff and personnel write-up be prepared reviewing his past performance and comments as to the degree of enthusiasm and initiative exhibited by each Agent in order that only sober, sensible, mature, enthusiastic Agents with proper initiative may be used on surveillances in the future.

Mr. Boardman has inquired as to whether the scope of the survey which I made in New York City on March 30, 31, and April 1, 1955, should have resulted in detecting some of the shortcomings of the New York office, as revealed by the current inspection being conducted there. My memorandum of March 28, 1955 (attached), set forth as the objectives of the survey: (1) whether there is any phase of the program where a saving of man power can be obtained, (2) whether there is a need for redirection of the expenditure of man power within the program, and (3) whether the over-all result of the program justifies the man power presently assigned to it.

On April 5, I prepared a memorandum directed to Mr. Belmont, setting forth the results of the survey (a copy of my memorandum is attached). You will note that one of the items criticized by the inspectors is the general use of 3-man surveillance teams. I went into this procedure during the survey which I conducted, I discussed this problem at length with supervisory officials, including the SAC, and I also specifically discussed this with 3 of the team captains who were actively engaged in the conduct of surveillances. I explored with the above persons whether there are not certain types of surveillances, and particularly, whether there are not certain individuals under surveillance whose activities are such that they can be surveilled with less than a 3-man team, and I emphasized that when there are such situations, surveillances should be modified to the circumstances. I concluded that in handling surveillances in New York a basic 3-man team is necessary. In arriving at this conclusion, I took into account the fact that it is practically impossible to get an automobile off the street when a subject leaves an automobile or public transportation and goes on foot. The driver of the car is, under these circumstances, not available to assist in a foot surveillance and certainly 2 men are necessary if a surveillance is to be maintained and with discretion.

RECEIVED CHIEF OF POLICE  
JUN 15 1955

I reviewed selected surveillance logs during the survey which failed to reveal any irregularities. I perceived a need for analysis on an individual case basis to be made available to the Bureau and to field supervisors of the problem of handling the investigation of subjects on an individual basis and I recommended and it was approved that such analysis be required, including recommendations as to just how surveillances should be conducted on a particular subject. This procedure was placed into effect by letter to the field dated April 13, 1955.

During the survey, I went out and looked over several of the plants and establishments being surveilled. I talked with the Agents on the plants. I went by [redacted] [redacted] I observed no surveillance automobiles parked near by any of the establishments. I observed no indication of lack of discretion in the handling of surveillances.

Following the espionage conference in New York City on February 19, I also checked certain of the establishments. I observed the need [redacted] In my memorandum of February 23, 1955, I commented on this. I was assured by the New York Office that they were negotiating floor space but that the problem was most difficult since [redacted] would be necessary on the same side of the street as the [redacted] To find one where the activities at the [redacted] could be observed was presenting problems. During my survey on March 30--April 1, 1955, I discussed this problem further with the New York Office and instructed that further efforts be made to [redacted] located.

b7E

My survey in New York resulted in three letters of instructions going to the field dated April 13, 1955, as follows:

(1) Letter to New York with copies to offices handling [redacted] pointing out that a large portion of the coverage in the program is effected through physical surveillances with extensive use of manpower at tremendous cost. It was instructed that constant, careful consideration be given to the

utilization of manpower in connection with the program to insure that we are obtaining results commensurate with the manpower and cost involved. It was instructed that coverage of the officials and contacts be carefully evaluated to produce utmost economy. It was instructed that the SACs must be alert at all times to note any investigative activity which is not producing results and promptly submit recommendations to the Bureau in connection therewith.

(2) Letter to SAC, New York, with copies to offices handling [redacted] This letter instructed the field to be alert to furnish to the Bureau information concerning all important developments and particularly those which reflect on accomplishments for the program. It was pointed out that funds for the program were made available after the National Security Council and the President determined that expansion of the coverage was desirable. It was stated that in order that we can properly justify the expenditure of these funds it is necessary to correlate all information reflecting positive results of the program on a regular basis. b7E

(3) Letter to New York, with copies to offices handling [redacted] This letter instructed the field that cases be analyzed on a case basis as to [redacted] b7E  
[redacted] It was pointed out that in order for the Agent handling the case on [redacted] [redacted] information relating to the subject produced by any source must be immediately routed to the Agent and promptly evaluated and considered by him. If such information requires action, it should be promptly initiated by the Agent to whom the case is assigned or if necessary, discussed with his Supervisor. The memorandum stated that these instructions are not to be considered as changing in any way the responsibilities of the investigating Agent and the Supervisor to confer as needed on the day-to-day operations in a particular case.

The survey which I conducted was not in the nature of a full-fledged inspection of this program. Obviously, such a survey would have required much more time than the time which I spent in New York. I detected no indication of failure of notification to supervisors and officials in

New York of pertinent facts concerning the program, nor of changing reports on the part of any personnel. You are assured that had I noted such, I would have promptly reported them to the Bureau and taken appropriate action.

Division is not attempting to avoid responsibility. This is our program and we have pushed it. Where weaknesses have come under our scrutiny, we have closely examined them and instructed corrective measures and will continue to do so.

The fundamental issue here hinges on dishonesty in field. Had Bureau received information on April 22, 1955,

[redacted] carefully examined situation, and taken corrective steps. It can be argued we were gullible in believing field was supervising program with strictness it deserved. [redacted]

b7E

I respectfully submit this program has been forcefully administered and pushed by the Domestic Intelligence Division. The administration of it from Seat of Government has been result of careful, original thinking and highly aggressive approach to meet responsibilities of Bureau [redacted]. We have consistently evaluated program, have watched for weaknesses, and where weaknesses have shown up we have taken prompt action. We have no intention of shirking our responsibilities in this Division but the weaknesses pointed out by Inspector Brown are essentially ones of faulty field administration.

The Central Research Section has for some time been preparing a comprehensive monograph on the subject of surveillances, including problems and solutions. This study will be put out in sections. The first section is expected to be completed at the end of this week. This monograph should be of considerable assistance to the field in meeting and solving various surveillance problems.

The Director has noted that both Belmont and Hennrich have been to New York to see if the intensification of coverage was being properly handled and he has inquired as to why they did not sense the various failures found there.

Mr. Belmont was in New York on March 24, 1955, and talked to approximately 625 Agents engaged in security work--one group in the morning and one in the afternoon. A copy of his memorandum dated March 25, 1955, covering his appearance at New York is attached. His discussion concerned the very real problems we are facing in the field of security. He ended the talk on the keynote that in all phases of security work each Agent must keep in mind the problems involved and the need to think before he acts. Belmont invited questions from the Agents and answered them. Belmont regrets that he did not sense what has shown up as weaknesses, [redacted]

b7E

Mr. Hennrich was in New York for an Espionage Conference on February 17 and 18, 1955. He remained over on Saturday, February 19, [redacted]

b7E

Mr. Hennrich was in New York again on March 30 and 31 and April 1, 1955, with the specific objective of conducting a survey as to whether a saving of man power could be obtained in the program; whether there was a need for redirection of the expenditure of man power within the program; and whether the over-all result of the program justified the man power assigned to it. He has prepared a detailed memorandum dated May 7, 1955, which is attached.

Hennrich went into the problem of the use of a basic 3-man surveillance team. He concluded that in New York a basic 3-man team is necessary if a subject is to be maintained under surveillance discreetly. In arriving at this conclusion, he took into account the fact it is practically impossible to get an automobile off the street when a subject leaves an automobile or public transportation and goes on foot or in the subway. The driver of the car is thus not available and certainly two men are necessary if the surveillance is to be maintained discreetly. This problem was discussed with the Supervisors in the New York Office, the SAC, and 3 of the surveillance team captains. In the discussions it was emphasized that when there are situations where surveillances can be conducted with less than a 3-man team, the surveillances should be modified to the circumstances. It was recognized that there are certain surveillances where more than three men are required to properly cover a given situation.

Hennrich reviewed selected surveillance logs, visited [redacted]

He observed no surveillance cars parked near any of the establishments and observed no indication of lack of discretion in the handling of surveillances.

Hennrich notes that on February 19, 1955, he discussed with the NYO officials [redacted] and discussed this problem further during his survey beginning March 30. He instructed that further efforts be made [redacted]

b7E

Hennrich perceived the need for analysis on an individual case basis [redacted]

b7E

As a result of Hennrich's survey, on April 13, 1955, letters were directed to the Special Agents in Charge of the offices participating [redacted] instructing that in view of the extensive use of man power on the surveillances and the tremendous cost, careful consideration be given to the utilization of man power to insure that we are obtaining results commensurate with the expenditure of man power and cost involved. It was instructed that [redacted] be carefully evaluated to produce utmost economy; that the SACs be alert at all times to note any investigative activity not producing results and promptly submit recommendations to the Bureau. It was instructed that the field be alert to furnish the Bureau information concerning all important developments and particularly those reflecting accomplishments under the program. It was pointed out that we must properly justify the expenditure of these funds. It was instructed that [redacted] be analyzed on a case basis by the Agent handling the case, the analysis to be reviewed by the field supervisor and submitted to the Bureau in order that we could thus review just how the individual cases are being handled, including the surveillances involved in the cases.

Hennrich points out that the objective of his survey was not a full-fledged inspection of the program, which would have required much more time than he spent in New York. He detected no indications of failure of notification to Supervisors and officials of pertinent facts concerning the program nor of changing of reports on the part of any personnel nor any indiscretions in the conduct of surveillances while he was there. He states that had he noted such, he would have promptly reported them and taken appropriate action. He regrets that he did not sense the failures which have been uncovered during the current inspection.

Mr. Carl E. Hennrich  
Federal Bureau of Investigation  
Washington, D. C.

Dear Mr. Hennrich:

Careful consideration has been given to your participation in the over-all supervision of [redacted] and in particular to the surveys which you conducted in this regard in the New York Office during February, March, and April, 1955. Although you had an opportunity to discuss this program with officials of the New York Office and to observe phases of the program in operation you failed to sense some of the deficiencies inherent in the manner in which the New York Office was carrying out this program.

In view of the serious weaknesses which have recently come to light in connection with this program in the New York Office it is obvious that you did not sufficiently impress upon personnel of that office the necessity for the utmost efficiency and discretion in implementing this program, the need for completely and accurately reporting pertinent information, and the requirement for prompt submission to the Bureau of complete factual information of any unusual incidents.

In view of the foregoing, you are being placed on probation. In the future it will be necessary for you to discharge your responsibilities with greater thoroughness and more consideration for the best interests of the Bureau.

Title InspectorRating Period: from 4/1/54 to 3/31/55

## RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).  
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).  
- Unsatisfactory.  
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

ADJECTIVE RATING : SATISFACTORY

Outstanding, Satisfactory, Unsatisfactory

CARL E. HENNRICH  
INSPECTOR  
GS-16 - \$12,200

During the first part of the rating period, Mr. Hennrich served as Inspector in Charge of the Espionage-Foreign Intelligence Branch of the Domestic Intelligence Division and subsequently took over the Central Research Section, so that he now is in charge of the Espionage-Central Research Branch. In this connection, he is responsible for some of the most intricate, delicate and important investigations handled by the Bureau.

Mr. Hennrich substitutes for the Assistant Director in his absence and has done an above average job in this respect.

Mr. Hennrich works best under pressure. He seeks, rather than avoids, responsibility and meets problems squarely. He is thoroughly experienced in all types of Bureau work and has an excellent background in all phases of security work. He is hard-driving, faces up to his responsibilities honestly, and is thoroughly loyal to the Bureau. His judgment is above average. He has shown excellent ability to make correct decisions in connection with daily problems posed by the field on an urgent basis.

Mr. Hennrich was censured on February 17, 1955, for failure of the Espionage Section to promptly disseminate information in a case to other Government agencies. He was censured on March 31, 1955, for failure to detect weakness in a memorandum to the Department which he approved.

Mr. Hennrich was commended by the Director on November 10, 1954, for the splendid way in which he represented the Interdepartmental Intelligence Conference during discussions at the National Security Council meeting.

Mr. Hennrich is a direct actionist who drives hard, acts promptly, and insists on results.

Mr. Hennrich is rated as Satisfactory.

July 7, 1955

Honorable J. Edgar Hoover  
Director  
Federal Bureau of Investigation  
Washington, D. C.

My dear Edgar:

Now that the Owen Lattimore matter has been finally disposed of so far as this Office is concerned, I desire to express to you my sincere gratitude and appreciation for the very superb job of investigation done by the Agents of your Bureau in this connection.

Undoubtedly many of your fine Agents worked on various aspects of this matter and, accordingly, it would not be feasible for me to mention them all by name; however, I am quite familiar with the numerous reports made by your men and from time to time had personal contact with a number of them; the entire situation was an extremely difficult one and I found it necessary from time to time to call upon your men for unusually delicate and involved investigations; at all times I found them thoroughly cooperative, extremely helpful and working with the utmost efficiency.

I do not desire to overlook any of the men who worked on this case but, as I stated above, there were so many that it would be rather difficult to single them out by name.

I am taking the liberty, however, of especially calling to your attention the fine services performed by Special Agent Wacht, operating under the supervision and direction of Mr. Carl E. Hennrich. I had many contacts with both of these gentlemen and the assistance they gave me simply could not be improved upon.

Hon. J. Edgar Hoover

7/7/55

While the final outcome of the case was, of course, disappointing, the Agents of your Bureau could not have done a finer job of investigation and could not have been of more assistance to us at the prosecutive stage.

With warmest personal regards, I am,

Cordially yours,

Leo A. Eovor  
United States Attorney

SA Minnich EOD 8-5-40 as messenger, 6-21-43 as Special Agent-L and 2-3-47, as Special Agent. He is in Grade GS-13, \$8360 per annum, and services satisfactory although cautioned 11-28-50 for delay in writing report, and censured, placed on probation, and removed as supervisor in Records and Communications Division 8-6-51, for lack of supervision, resulting in loafing by employees. Mr. Hennrich was placed on probation May 19, 1955, for failure to sense deficiencies inherent in  in the New York Office during surveys which he conducted there.

On June 29, 1955, the Director commended Hennrich for his capable supervision of an operation conducted by the Washington Field Office relative to a matter of great importance to the country's security. On July 7, 1955, U. S. Attorney Leo Rover wrote to the Director, commending the services of Mr. Hennrich in connection with the Owen Lattimore case.

During my annual leave in July, Hennrich acted in my place and, in addition, acted in the place of Mr. Boardman for several days in Mr. Boardman's absence. He handled these positions very effectively.

RECOMMENDATION:

Mr. Hennrich's work has been very satisfactory and, consequently, I recommend that he be removed from probation.

RE: REMOVAL FROM PROBATION

SA Hennrich entered on duty 2-3-34 as a Clerk, on 10-7-35 he was appointed to the position of Special Agent and is presently in GS-16, \$13,330 per annum. He is being considered for removal from probation.

b7E

By letter dated 5-19-55 he was CENSURED and PLACED ON PROBATION inasmuch as careful consideration had been given to his participation in the over-all supervision of [redacted] and in particular to the surveys which he conducted in this regard in the New York Office during February, March, and April, 1955. Although he had an opportunity to discuss this program with officials of the New York Office and to observe phases of the program in operation he failed to sense some of the deficiencies inherent in the manner in which the New York Office was carrying out this program. In view of the serious weaknesses which had recently come to light in connection with this program in the New York Office it was obvious that he did not sufficiently impress upon personnel of that office the necessity for the utmost efficiency and discretion in implementing this program, the need for completely and accurately reporting pertinent information, and the requirement for prompt submission to the Bureau of complete factual information of any unusual incidents.

By letter dated 6-29-55 he was COMMENDED for his capable supervision at the Seat of Government of an operation conducted by the Washington Field Office relative to a matter of great importance to the country's security. By memorandum dated 8-19-55 Mr. Belmont recommended that Mr. Hennrich be removed from probation and Mr. Boardman concurred. 67-33786-310

**RECOMMENDATION:** Inasmuch as the Domestic Intelligence Division is currently under inspection by Mr. Tamm, it is recommended that action to remove Mr. Hennrich from probation be held in abeyance until the results of this inspection are known.

Mr. Hennrich who is on annual leave called me from Meredith, New Hampshire, this afternoon to advise that his son had fallen during a mountain climb and had suffered lacerations, cuts and possibly other injuries which will necessitate his staying in the hospital for several days. Mr. Hennrich said that the examination of the boy is not completed, but it appears that he will recover all right. Inasmuch as his son cannot be moved now, Mr. Hennrich requested an extension of a few days of his annual leave. RE: REMOVAL FROM PROBATION

SA Hennrich entered on duty 2-3-34 as a Clerk, on 10-7-35 he was appointed to the position of Special Agent and is presently in GS-16, \$13,330 per annum. He is being considered for removal from probation.

b7E

By letter dated 5-19-55 he was CENSURED and PLACED ON PROBATION inasmuch as careful consideration had been given to his participation in the over-all supervision of [redacted] and in particular to the surveys which he conducted in this regard in the New York Office during February, March, and April, 1955. Although he had an opportunity to discuss this program with officials of the New York Office and to observe phases of the program in operation he failed to sense some of the deficiencies inherent in the manner in which the New York Office was carrying out this program. In view of the serious weaknesses which had recently come to light in connection with this program in the New York Office it was obvious that he did not sufficiently impress upon personnel of that office the necessity for the utmost efficiency and discretion in implementing this program, the need for completely and accurately reporting pertinent information, and the requirement for prompt submission to the Bureau of complete factual information of any unusual incidents.

By letter dated 6-29-55 he was COMMENDED for his capable supervision at the Seat of Government of an operation conducted by the Washington Field Office relative to a matter of great importance to the country's security. The effective direction and guidance he furnished the field contributed materially to the success realized. It is noted he supervised [redacted]

b7E

By memorandum dated 8-19-55 Mr. Belmont recommended that Mr. Hennrich be removed from probation and Mr. Boardman concurred.

By memorandum dated 8-24-55 he was considered for removal from probation; however, this action was held in abeyance until the results of the Inspection of the Domestic Intelligence Division were known.

 Attachment

During the Inspection of the Domestic Intelligence Division in August, 1955, Mr. Tamm stated he was a vigorous, enthusiastic, loyal Bureau official. He made up his mind quickly. He had a wealth of knowledge and experience in intelligence matters. He was functioning capably. He had no problems and was available.

During the above-mentioned inspection the Domestic Intelligence Division was rated as Excellent in Physical Condition and Maintenance, Very Good in Investigative Operations, Good in Administrative Operations and Good in Personnel Matters.

Mr. Tamm advised on 9-13-55 that nothing was disclosed during his inspection of the Domestic Intelligence Division to warrant Mr. Hennrich being continued on probation and he knew of no reason why Mr. Hennrich should not be removed from probation at this time.

RECOMMENDATION: It is recommended that Mr. Hennrich be removed from probation at this time.

In accordance with the Director's memorandum of May 10, 1955, records have been maintained of errors in correspondence and of the reviewing officials who approved correspondence with nonsubstantive errors contained therein.

During the period May 10 to October 4, 1955, Messrs. Hennrich, Cleveland and Todd had ten such errors charged against them. A review of the errors reflected that most were typographical or grammatical errors.

I have discussed these errors with Messrs. Hennrich, Cleveland and Todd and have emphasized the necessity of their reviewing mail even more carefully in the future.

RECOMMENDATION:

It is recommended that this memorandum be forwarded to the Administrative Division so that letters of censure may be prepared for Messrs. Hennrich, Cleveland and Todd.

*D.C.*

On November 9, 1955, I received a call from former Special Agent [REDACTED] who is Security Officer, Emerson Research Laboratories. He stated that the subject was recently an applicant for a position with his organization and was being favorably considered for a position which required clearance for "secret" information. He said that he advised [REDACTED] that it would be necessary to conduct an extensive investigation before he could be employed and that thereafter [REDACTED] stated to him that I had probably put information in the FBI files about him which would be derogatory. He then said I had been spreading tales about him and prevented him from getting jobs. He specifically said I had informed a railroad detective several years ago that he, [REDACTED] was crazy. He later used the word insane, and that as a result of this he had lost his job with the railroad. He told [REDACTED] he had not listed this employment in his application because he thought some derogatory information might develop. [REDACTED] said that from the nature of the interview which he had with [REDACTED] he did not believe his statements and from other things that [REDACTED] had said the Emerson Research Laboratories would not employ him. He stated, however, that he thought since [REDACTED] had made these statements that I should know about it and he inquired whether I did, in fact, consider [REDACTED] as insane. I advised him that I had observed no actions of [REDACTED] which would indicate him insane.

[REDACTED] lived next door to me on [REDACTED] in [REDACTED] in 1943 and possibly 1944. He thereafter moved to a home on [REDACTED] in [REDACTED] near [REDACTED]. His telephone number is CI 6-0084. He is a rather personable individual with a dry sense of humor and some eccentricities. His wife is a very friendly individual and I believe she is now a school teacher. They have two children approximately the ages of my children and throughout the years we have maintained contact with the [REDACTED] and have visited back and forth on an average of about twice a year. [REDACTED] is trained in the electronics field. During the early 1940s he was employed by the United States Recording Company. This organization had a contract to repair the FBI's recording equipment and [REDACTED] indicated to me that he was

doing some of this work. He has had several jobs through the years principally, as reported by him, as an [redacted] and he has indicated from time to time he has worked on recording assignments, recording programs for later transmission, etc. The last time I recall seeing him was Christmas, 1954, when his family visited at my home.

On October 27, 1952, Lieutenant [redacted] of the Atlantic Coastline Railroad Company (ACLR) called at my office in the Bureau and told me that [redacted] had furnished my name as a reference in connection with a position of telegrapher with ACLR and inquired as to his integrity and loyalty. I submitted a memorandum on October 28, 1952, regarding this interview which is attached. I stated to [redacted] at that time that as far as I knew [redacted] was reliable and that I had no reason to believe him other than a loyal citizen of the United States. I made no statement during this interview that I considered [redacted] as crazy or insane. I did not so consider him.

I talked with [redacted] again and told him that I was at a loss to understand the statements attributed to me by [redacted] and inquired whether he could furnish any further information in this connection. I told him I was considering talking with [redacted] to straighten this matter out and [redacted] indicated he had no objection since he had stated to [redacted] that he would probably talk with me about it. In questioning [redacted] further regarding statements made by [redacted] in connection with the interview he told me that [redacted] had made the following statements which he, [redacted] considered incredible.

[redacted]

On November 13 I talked with the subject [redacted]. He came to my home. I told him I was concerned regarding the statements which he had made to [redacted] that I had branded him as insane and I asked him specifically where he got the information. He said he had inferred that I had made such statements, that he knew I had been interviewed in connection with an investigation of him and that following the investigation he had overheard one of his superiors at the ACLRR named Frank Alexander, Assistant General Passenger Agent, who is now deceased, comment to another official that [redacted] was insane. He said he assumed I was the one who made the statement. He could give no reason for such assumption and he specifically said no one had attributed it to me. I asked him why he had not come to me regarding his feelings in this regard and he commented that in Washington nothing can be gained by going directly to someone to straighten out a problem, that he had tried this by going to his minister regarding problems and his minister would not be frank with him. I told [redacted] that I did not appreciate his attributing statements to me on the basis of suspicions and that I expected that he would cease any such statements in the future. He assured me that he would. He assured me that [redacted] was the only person to whom he made this statement and that he had only talked to [redacted] because he knew him to be an ex-FBI Agent, brother Mason and a good Christian and he knew [redacted] would talk to me about it and that he could get the thing straightened out. [redacted] stated to me that he was not fired from the ACLRR as [redacted] reported but he left there because he was restored to a job he had previously held at radio station WFAM by order of the National Labor Relations Board.

b6  
b7C

[redacted] stated that all of his troubles go back to his employment with the United States Recording Company when he worked for [redacted]. Also employed there were [redacted] and [redacted]. He said that the United States Recording Company had contracts at that time to repair 3-D recording equipment for the FBI and also for the Department of Agriculture and that [redacted] would loan this equipment out to individuals for private purposes even though it was Government property. [redacted] made the following statements in this connection.

b6  
b7C

1. In the Fall of 1946 Tait loaned Government recording equipment to [redacted] that he [redacted] was present and saw this.

2. That in 1946 he [ ] at the instigation of [ ] secreted a microphone in an apartment at 14th and U Streets. This was done at the request of a colored politician whose name [ ] did not recall, who said that the work was being done indirectly for the FBI. He said [ ] assisted him on this assignment and that a recorder belonging to the Department of Agriculture was used on the job. He said that the purpose of the microphone was to determine who was the owner of the building and that information was developed that, among other things, two waiters who worked for the Marine Corps at Quantico had the syphilis. [ ] stated that he had mentioned to me in 1946 that information had come to his attention that two employees of the Marine Corps at Quantico had the syphilis. I have no recollection of such an incident.

3. [ ] stated that in 1946 [ ] informed him that John D. Rockefeller, Jr., had asked through the FBI to establish microphone coverage of hostesses at Williamsburg to cover their talks when taking tours through the various buildings and that he, [ ] together with [ ] had gone to Williamsburg on the job and installed several microphones and they took two 3-D recorders belonging to the FBI with them to use on this job. [ ] said that because of [ ] behaviour with female employees Rutherford Goodman, Director of the Williamsburg Restoration, had asked to have [ ] pulled off the job.

b6  
b7C

4. [ ] said that during the Summer of 1955 he filed an application with the Civil Service Commission on Form 57 for a job in the District of Columbia in the electronics field and that he had noted on this form under the question why he left employment of the United States Recording Company that he disagreed with the owner's official policy of loaning U. S. Government property belonging to the FBI and Department of Agriculture to private persons for private use.

b6  
b7C

I asked [ ] why he had not furnished this information to the Bureau or to me previously and he said he had given hints. He stated that on one occasion he had commented to me he was trying to give the FBI best service possible but that he had to compete with company politics. He said he expected me at that point to question him regarding what he meant and he would then have told me about these things. I have no recollection of such a statement by [ ] went on to say that since leaving the United States Recording Company, every time he gets a new job [ ] who desires [ ] to return and work for him, will hold [ ] knowledge and complicity in the use of official Government equipment for private reasons over his head and attempt to get him to return to work by this means.

# PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee CARL E. HENNRICHTitle INSPECTORRating Period: from 4/1/55 to 3/31/56

## RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).  
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).  
- Unsatisfactory.  
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

RE: CARL E. HENNRICH

Part I - General Comments

During the entire rating period, Mr. Hennrich was Inspector in Charge of the Espionage-Central Research Branch of the Domestic Intelligence Division. On a number of occasions, however, he took over the handling of the Division, in the absence of the Assistant Director, and, in addition, took over the desk of the Assistant to the Director on several occasions. His relief work in both of these positions was above average.

Mr. Hennrich represents the Bureau on committees engaged in very important and delicate security deliberations. He is most competent in properly representing the Bureau and in protecting the Bureau's interests.

In his daily work, Mr. Hennrich is constantly being faced with the need to make prompt decisions, both on the basis of problems presented within the Division and as a result of problems posed by the field and by other Government agencies. He has consistently shown ability to meet these problems and come up with a sound decision. He requires little supervision. His varied experience in all types of Bureau work, coupled with his drive, enthusiasm and complete loyalty to the Bureau, make him a definite asset to the Bureau.

Mr. Hennrich was commended by the Director on June 29, 1955, in connection with a Czechoslovakian intelligence case. He was commended by U. S. Attorney Rover on July 7, 1955, in connection with the Owen Lattimore case. He was commended by General George on November 23, 1955, in connection with an important National Security Council report. He was commended by the Director on December 13, 1955, for his notable handling of the December alert test.

Mr. Hennrich is rated as Satisfactory.

On May 19, 1955, censured and placed on probation for deficiencies in the [redacted] removed from probation September 15, 1955. Criticized October 11, 1955, for failure to detect nonsubstantive errors in correspondence reviewed by him.

b7E

6. Accounting Information - Not applicable.
7. Police Instruction - Not applicable.
8. Sound Training - Not applicable.

In accordance with instructions contained in the Director's memorandum of May 10, 1955, a tabulation has been maintained in connection with reviewing officials who approve correspondence containing nonsubstantive errors. During the period November 10, 1955, through April 27, 1956, Inspector Carl E. Hennrich had ten such errors.

A review of these errors reflects that they were all of a nonserious nature, and none of the errors changed the meaning of the communications in question in any way. I have discussed these errors with Inspector Hennrich and have emphasized the necessity of his reviewing mail even more carefully in the future.

RECOMMENDATION:

It is recommended that this memorandum be forwarded to the Administrative Division so that a letter of censure may be prepared for Inspector Hennrich.

The Director has requested an explanation as to why I was not aware of the fact  of the Department had made available to the Bureau, on afternoon of July 9, a copy of Attorney General's duty schedule, which was not made available to the Director for his use in conference with Attorney General on July 11, 1956.

b6

b7C

I had not been informed by Mr. McArdle that he had this duty schedule in his possession.

In connection with the preparation of the brief for the Director's use, I had issued instructions to personnel who participated in preparing the brief and who were handling  and the portfolio that the brief was to be kept up to date in order that all items which the Director would need would be available to him. I had checked on several occasions and had arranged for the inclusion of additional data as to scheduled meetings during  which we learned about after the original submission of the brief for the Director's use.

b7E

It is apparent I did not sufficiently impress upon the personnel the importance of this brief, since the duty schedule was not called to my attention and was not included in the brief. I sincerely regret that this occurred.

That I be censured.

There are attached memoranda of explanation dated July 11, 1956, from Supervisor James E. McArdle, Inspector Joseph A. Sizoo, and Inspector Carl E. Hennrich regarding the failure of McArdle to call to the attention of Mr. Belmont's office the receipt of the Attorney General's duty schedule on Monday, July 9, 1956, and the failure to include this information in the brief which had been prepared for the Director's use in conference with the Attorney General on July 11.

Mr. McArdle states that Mr. Airhart, in furnishing the schedule to him, advised it was not to be considered a final duty schedule in that he was not certain where the Attorney General would be at any given time during the test. Airhart was of the opinion the schedule would be changed in the near future. McArdle states that on the basis of Airhart's statements, he (McArdle) retained the schedule for ~~McArdle~~ in the over-all plan for  as soon as the final draft of the schedule was received.

b7E

McArdle states he was aware of the Director's conference with the Attorney General, but refrained from taking action to include the schedule in the Director's brief, since, on the basis of Airhart's statements, he (McArdle) believed the schedule could not be relied upon.

McArdle recognizes he made an error in judgment in this matter. He expresses regret and assures that henceforth any matters which could be considered of interest to the Director will be handled with dispatch and diligence.

FBI	

Mr. Hennrich states he has advised responsible persons of the necessity for including proper material in the brief for the Director's use in the conference with the Attorney General and for keeping the brief up to date. He states he arranged to have certain material added to the brief, following its submission. Mr. Hennrich recognizes he did not sufficiently impress the personnel with the necessity of seeing to it that proper items were placed in the brief, and he recommends that he be censured for this.

Mr. Sizoo has submitted a memorandum regarding his checking on the status of the brief on the afternoon of July 10. He states he checked with Mr. Bland, the brief being a joint effort on the part of Supervisor Rushing, in Mr. Bland's Section, and Supervisor McArdle, in the Liaison Section. Mr. Sizoo was advised by Mr. Bland that the brief was up to date and that Rushing was maintaining close contact with McArdle and that any changes would be immediately included.

**ACTION:**

As of now, all documents received from the Department in connection with [ ] will be immediately brought to the attention of Mr. Belmont or whoever is acting in his absence.

**RECOMMENDATIONS:**

1. Supervisor James E. McArdle has been handling the coordination of details having to do with FBI Defense Plans since prior to [ ]. He has been a competent supervisor, has handled a mass of detail, and has over a long period of time exercised uniformly good judgment in planning our operation both under actual emergency conditions and for [ ] purposes.

There can be no doubt that his judgment in connection with this incident was bad. He decided, on his own responsibility, that on the basis of Airhart's statements to effect the schedule would be changed in the near future, the schedule could not be relied upon and, therefore, he did not submit it for inclusion in the Director's brief. He recognizes his mistake in judgment.

It is recommended that Mr. McArdle be severely censured and placed on probation.

Memorandum to Mr. Boardman from Mr. Belmont

RECOMMENDATIONS (continued):

2. While Mr. Hennrich issued instructions regarding the keeping of the brief up to date and did take action in this regard, he obviously did not sufficiently impress upon the personnel the importance of this matter, since the Attorney General's schedule was not included in the brief.

It is recommended that Mr. Hennrich be censured.

3. Mr. Sizoo has explained that upon receiving a request from Mr. Boardman as to the status of the Director's brief, he checked with Mr. Bland and was assured the brief was up to date. Bland had checked with Rushing and McArdle during the day of July 10, subsequent to the receipt of the Attorney General's schedule, and had been assured the brief was up to date.

No action is recommended as to Mr. Sizoo and Mr. Bland.

The following is a brief and concise summary of his record for the Director's use.

b7E

A review of his file reflected that he was CENSURED and PLACED ON PROBATION on 5-19-55 for his participation in the over-all supervision of [redacted] and in particular to the surveys which he conducted in this regard in the New York Office during February, March, and April, 1955. He was REMOVED FROM PROBATION 9-15-55. He was also CENSURED on 10-11-55, 5-9-56 and 7-23-56. He received COMMENDATIONS on 12-13-55 and 6-29-55.

By letter dated 2-3-56 the Director congratulated him on the occasion of his Twenty-second Anniversary with the FBI.

On his 1956 annual performance report Mr. Belmont rated him SATISFACTORY and said his varied experience in all types of Bureau work, coupled with his drive, enthusiasm and complete loyalty to the Bureau, made him a definite asset to the Bureau. The following is a brief and concise summary of SA Hennrich's brief for the Director's use.

A review of his file reflects he was designated #2 Man in the Domestic Intelligence Division on 2-27-50, and on 8-10-51 he was designated #1 Man in the same division. On 10-28-51 he was assigned to the duties of Inspector in the Domestic Intelligence Division.

In the last nine months SA Hennrich has received two letters of Censure, one on 5-9-56 for the number of nonsubstantive errors that had been detected in the past in official correspondence reviewed and approved by him and on 7-23-56, inasmuch as certain very important information was omitted from a brief prepared for the Director's use concerning the practice emergency evacuation of Washington. Since he issued the instructions for the preparation of this brief and he was advised of the necessity for including all pertinent material in it, it was apparent that he did not properly fulfill his responsibilities in that instance. He received no letters of commendation in the last nine months.

By letter dated 2-3-56 the Director congratulated him on the occasion of his Twenty-second Anniversary with the Bureau.

On his 1956 annual performance report Mr. Belmont rated him **SATISFACTORY** and stated SA Hennrich's varied experience in all types of Bureau work, coupled with his drive, enthusiasm and complete loyalty to the Bureau, made him a definite asset to the Bureau. He was most competent in properly representing the Bureau and in protecting the Bureau's interests. He was interested in and available for any assignment the Bureau desired to give him and he was qualified for further advancement in the Bureau.

His daily average overtime for the last six months is as follows; March, 3 hours 32 minutes; April, 3 hours 4 minutes; May, 2 hours 44 minutes; June, 3 hours 24 minutes; July, 3 hours 24 minutes; August, 2 hours 52 minutes.

As of February, 1956 he lists Washington, D. C. as his office of preference.

Mr. Hennrich called me this morning and stated he had received his transfer notice and he was wondering whether he should have some administrative firearms training before proceeding to his new office of assignment. He stated he was presently on annual leave and his annual leave was due to expire Friday, October 12, 1956. He plans on reporting to duty on Monday, October 15, 1956. He had previously been scheduled for regular firearms training on Monday, October 15, 1956; however, I told him he should forego this day of training and he should arrange with SAC Sloan to report to Quantico for firearms training for at least three days to brush up on his firearms ability.

Hennrich stated he plans on reporting in Philadelphia for assignment on Thursday, October 25, 1956. Hennrich also stated he did not know whether he would sell or rent his house and he was negotiating along these lines at the present time. He said in all probability he would leave his family in Washington and depart for Philadelphia and have his family join him later.

Hennrich will be available at the Seat of Government from Monday, October 15, 1956, through Wednesday, October 24, 1956, except for the three days he will be at Quantico to brush up on his firearms.

#### CENSURE MATTERS

18 censure letters directed to the Philadelphia personnel during 6 month period ending September 30, 1956, 1 being to SAC McCabe and none to ASAC E. E. Brown.

6 resulted from delayed, improper or inadequate handling of matters including the 1 to SAC McCabe; 6 resulted from the May-June, 1956, inspection of the Philadelphia Office involving inadequate or delayed handling of matters; 5 resulted from errors in official communications and 1 was directed to an agent for permitting himself to be photographed for a newspaper without Bureau approval.

Thus far in October no such letters have been directed to Philadelphia personnel. However, 2 agents are being recommended for censure since they permitted a prisoner to escape (later apprehended) in a Bond Default case. (Recommendation approved and being censured by letters dated October 5.)

#### INFORMANT COVERAGE

##### Security Informants

1 technical surveillance, 1 microphone surveillance, 43 trash covers and 3 mail covers on security matters. 53 security informants, 42 of whom are paid and 20 of whom are members of the Communist Party which has a total estimated membership in this area of 443. 13 potential security informants under development.

For comparison purposes as of October, 1955, the Philadelphia Office had 50 security informants and was developing 11 potential security informants.

## Criminal Informants

47 criminal informants none of whom are regularly paid. 141 potential criminal informants being contacted for development. During the past 6 months a net decrease of 1 criminal informant and a decrease of 15 potential criminal informants, during which period Agent days per month spent in developing informants decreased from 76 to 53. No approved criminal informants in the Chambersburg Resident Agency but potential criminal informants are under development there.

## INSPECTION

Last inspected May 21 to June 8, 1956, by Inspector J. E. Edwards.  
Ratings and results follow:

### Physical Condition and Maintenance

Very Good

Location of office favorable and security adequate. Tail-light on 1 of 20 cars inspected found inoperative and minor delinquencies not affecting safe operation<sup>noted</sup> and corrected in 4 other cars.

### Investigative Operations

Good

Rated only good principally because criminal statistical accomplishments below average in 3 out of 4 categories. (Current accomplishments set out previously). Office delinquency as of May 31, 1956, 3.76%, considered low. (Current work delinquency figures set out previously). 5 errors of substance noted in 4 files out of 1,175 pending and closed files reviewed or .34%, considered low. Deadlines missed included 4 of 100 closed applicant files reviewed (delay letters sent in each instance), 4 of 154 fugitive cases reviewed, considered low. Since previous recheck inspection August, 1955, approved security informants increased by 3 and potential security informants decreased by 2. During same period approved criminal informants remained the same at 47 and potential criminal informants increased by 28. Over-all program considered very good. 1 Security Index subject missing. All supervisory personnel manifested a definite awareness concerning problem of increasing statistical accomplishments and SAC was instructed concerning necessity for each agent to become "new case conscious" and to be constantly alert to sell Bureau service.

### Administrative Operations

Very Good

Volume of cases appeared equitably distributed among supervisors and administrative responsibilities were adequately and specifically assigned. Of 4,000 Index Cards checked 9 misfiles and 5 missed consolidations were found, considered low. 8 investigative case ticklers missing

of 2, 294 pending cases 4.35%, considered low. 6 jackets which should have been in the closed files were located in the pending files. 57 form errors found in 49 files of 1,175 reviewed or 4.1%, considered below average. 43 attributable to agents and 14 to clerks.

#### Personnel Matters

Very Good

All available agent and clerical personnel successfully passed examinations. Indoctrination and Employee Training Program considered very good. Agent personnel considered adequate and not excessive and Inspector agreed to SAC's request for replacement for resigned stenographic and clerical personnel. Overtime generally equitably distributed and morale appeared to be very good.

#### Contacts

Very Good

19 approved SAC contacts all of whom were known to and 3 were personally developed by SAC McCabe. National Academy graduates in law enforcement were cooperative and progressive and favorable relationship existed with the press. Police training schools were held under the joint sponsorship of the FBI and Pennsylvania Chiefs of Police Association. Splendid cooperation existed and resulted in the Bureau's domination of Police training in Pennsylvania. In 1947, Philadelphia Office began conducting police training at Reading, Pennsylvania, displacing in the training field the Public Service Institute, a state organization that was hostile toward the Bureau. However, due to indications of possible political and police influence in gambling and other vice conditions in Reading, it appeared undesirable for the Bureau to continue police training in that area. (Philadelphia was subsequently instructed to schedule no more schools at Reading).

#### SPEAKING ENGAGEMENTS

353 during 1954, including 4 by Seat of Government, 1 by St. Louis, 1 by Pittsburgh, 1 by Newark, 27 by SAC Abbaticchio, 19 by SAC McCabe, 16 by former ASAC Mulroy and 9 by ASAC E. E. Brown. 300 during 1955, including 4 by Seat of Government, 1 by Baltimore, 62 by SAC McCabe and 41 by ASAC E. E. Brown.

202 through September, 1956, including 5 by Seat of Government, 65 by SAC McCabe and 37 by ASAC Brown.

#### NATIONAL ACADEMY GRADUATES

59 in law enforcement work and in good standing.

#### POLICE TRAINING SCHOOLS

60 during 1955 and 67 through September, 1956.

MEMORANDUM FOR MR. TOLSON

Today I saw Inspector Carl E. Hennrich, of the Domestic Intelligence Division, who is under orders of transfer to Philadelphia as Special Agent in Charge. I discussed with Mr. Hennrich generally the operations of the Philadelphia Office.

I called to Mr. Hennrich's attention the necessity for keeping the delinquency in all classes of cases below twenty per cent and the desirability of obtaining increased production in that I had noted the Philadelphia Office was closing but 6.6 cases per Agent per month, whereas the average for the field is 7.37.

I also called Mr. Hennrich's attention to the fact that as regards convictions, the Philadelphia Office was down twenty-four per cent for the first three months of this fiscal year, as compared with the first three months of the previous fiscal year. I likewise called Mr. Hennrich's attention to the fact that it had been necessary to write eighteen letters of censure during the last six months to the personnel of the Philadelphia Office and I believed that this could be materially reduced if more careful supervision were given to the operations of this office.

I likewise discussed with Mr. Hennrich the importance of the handling of Civil Rights investigations and the investigations coming under the Federal Kidnaping Statutes.

For record purposes, at 9:30 a. m. today, SAC McCabe of the Philadelphia Office who is under transfer as ASAC in the New York Office telephoned. He advised Wick he had received a call from Adrian Lee of the "Philadelphia Bulletin" today concerning McCabe's transfer as ASAC in the New York Office. McCabe said he confirmed this information inasmuch as the fact that his transfer has become known because of his saying good-bys, and so forth. McCabe will report to the New York Office 10/29/56.

McCabe stated he was asked by Lee as to his successor, and McCabe told him the Director had designated Mr. Carl Hennrich as SAC of the Philadelphia Office in a routine administrative transfer. McCabe gave Lee background data on Hennrich and Lee indicated he intended to contact Mr. Hennrich personally by phone today.

Mr. Hennrich advises that Lee did contact him this morning by phone and Hennrich confirmed his transfer as SAC and gave Lee the usual biographical data, and in answer to Lee's specific question, Hennrich told him that he had been handling general supervisory duties of a security nature at FBI Headquarters in Washington for the past few years.

Both SAC McCabe and Inspector Hennrich advised Wick they understand thoroughly that inquiries from the press will be handled on a local basis, and McCabe so informed press representatives calling him.

Dear Mr. Hoover:

Special Agent in Charge Carl E. Heinrich of your Philadelphia Office participated in our 16th National Park Service General Administration Training Course, which was held in that city on December 3-14 and attended by 27 selected field employees of this Service.

Mr. Heinrich made a very fine impression on our Trainees; participated in a fine discussion of the Federal Bureau of Investigation and its work; and made an interesting and informative presentation of the subject of "Law Enforcement Techniques and Procedures." He is obviously very familiar with law enforcement work, and we believe that his discussion was of real benefit to our Trainees, some of whom are members of our park ranger organization.

The continued fine, cooperative relationships which exist between the Federal Bureau of Investigation and this Service and the law enforcement training which some of our park rangers have received through attendance at the F.B.I. National Academy are most gratifying to us.

With very best regards,

Sincerely,

By memorandum dated February 8, 1957, Mr. Laurence H. Arman, Employment Policy Officer of the Department, attached a copy of a letter with attachment from Mr. Archibald J. Carey, Jr., Acting Chairman of the President's Committee on Government Employment Policy, to the Attorney General dated 1/28/57, concerning one regional conference to be held in Philadelphia, Pennsylvania, March 27, 1957, for the purpose of explaining the nondiscrimination policy in Government employment and to discuss its implementation. Mr. Carey's letter invited, through the Attorney General, the head of our Philadelphia Office to attend the conference. Mr. Carey suggested that the agency heads be accompanied by their Deputy Employment Policy Officers if such have been designated. As yet, no Deputy Employment Policy Officer has been designated for the Bureau. Mr. Arman desires to be advised of the name and title of the person designated by the Bureau to attend the meeting in Philadelphia so that he might advise the captioned committee of such information.

You may recall that previous conferences of this nature were held in New Orleans and Dallas in March, 1956; in Memphis and St. Louis in September, 1956; and in Chicago in December, 1956. Our SACs attended the meetings in those cities. As explained in Mr. Carey's letter of 1/28/57, the conferences are devoted only to an explanation of the nondiscrimination policy expressed in Executive Order 10590 and to a round-table discussion of the implementation of the Executive Order.

## RECOMMENDATIONS:

RECORDED - 149

1. That SAC Hennrich, Philadelphia, be designated to attend the conference in that city. If approved Hennrich will be telephonically contacted and furnished the background material on the conferences and instructed to attend the conference as an observer, and advise the Bureau as to what transpires.

Mr. J. Edgar Hoover  
Director, Federal Bureau of Investigation  
Washington, D. C.

Dear Sir:

Today I have completed almost three years service as an Assistant United States Attorney in the Eastern District of Pennsylvania.

In good conscience, I feel I would not wish to return to the private practice of law without extending to you my congratulations upon the outstanding effectiveness of your Special Agents in Philadelphia with whom I have been associated in the field of general criminal investigation. It is not an overstatement for me to say that I have never associated with a group of men who were so completely devoted to the performance of public duty. Their intelligence, alertness and willingness to cooperate has made the preparation and trial of cases with them a pleasurable duty and a far different experience than with some other Federal investigative agencies. They are a group entirely representative of the great tradition, which the Bureau has developed, under your leadership in the past thirty years.

I hope you will advise Mr. McCabe, the former Special Agent in Charge, and Mr. Hennrich, the present Agent in Charge, of my feelings about the wonderful way in which the Philadelphia office has assisted us.

With very best personal wishes, I am,

Very truly yours,

Dear Mr. Hoover:-

Today is my last day in the office as the United States Attorney for the Middle District of Pennsylvania, and in leaving this office I want to express to you my grateful appreciation for the many kindnesses shown to me and the members of my staff by you and your associates in Washington, and by the many Special Agents in the Middle District of Pennsylvania.

I want to especially commend the Special Agents in Charge of the Philadelphia District, Norman McCabe and Carl E. Hennrich. Never did we have an occasion to call upon them for any service that we did not receive prompt consideration of our request, equally prompt expert advice and assistance from them. While Mr. Hennrich has only been in this District for a few months, it was long enough for us to recognize his ability and his helpfulness, and his graciousness in answering our requests for assistance.

We in the United States Attorneys Office also commend the fine industry and the professional ability of the following Special Agents who are located in the Resident Office at Scranton, Pennsylvania.

Each and everyone of these men not only exhibited skill of the highest order but comported themselves as Special Agents in the highest traditions of their office. When we speak of their virtues, we express only that of which we have personal knowledge by daily, and to a large extent nightly, association and observation. During our four years in this office, never on any occasion did we have to stand up in defense of the conduct of these gentlemen, for their conduct was never challenged in the Court Room. In fact, the reputation that I have outlined here is shared by all of the members of the Bar in the Middle District of Pennsylvania. Frequently, they have been commended for their services in open Court by counsel who are adversaries and by the Judge who sat on the bench.

We in this office can say with verity that every F.B.I. Special Agent who has served in the Middle District of Pennsylvania, and in distant places as far as York, have shown great industry and professional ability in their work and have also comported themselves in the highest traditions of the office they occupy.

I could not leave the office without this expression of commendation to your Special Agents.

Mr. Carl E. Hennrich

Dear Mr. Hennrich:

Based upon the findings of the recent inspection of the Philadelphia Division, the various phases of operations of your office were rated as follows: Physical Condition and Maintenance, Contacts and Personnel Matters - very good; Investigative and Administrative Operations - good. The weaknesses found were brought to your attention and discussed with you, the Assistant Special Agent in Charge and your supervisory staff.

I was pleased to learn that the space was secure, well organized and well maintained and that no delinquencies affecting the safe operation of cars were found during the inspection.

Your office reported a slight increase in automobiles recovered and a substantial increase in fines, savings and recoveries for the first eight months of the 1957 fiscal year as compared to the same period of the 1956 fiscal year; however, decreases were reported in convictions and fugitives apprehended. You indicated to the Inspector that you believe the Philadelphia Office will increase statistics in all categories. Close supervision is necessary to insure that such increases are obtained.

The number of substantive errors found in pending and closed files was low. You and your supervisory staff must continue to closely supervise investigations to keep all errors to a bare minimum.

DUPLICATE YELLOW

Mr. Carl E. Hennrich

Form errors were found in 71 of 1,266 files reviewed. Agents were responsible for 68.2 per cent and clerks were responsible for 31.8 per cent of the errors. Both clerical and agent personnel must give more attention to the matter of eliminating these errors.

There were no missed deadlines noted in 52 applicant cases reviewed. Of 103 fugitive cases reviewed, 13 missed deadlines were found. Although there were no apparent substantive weaknesses in these cases resulting from the delays, deadlines are necessary and are set for a purpose. You and all agents must remember that delays can result in loss of statistics and possible embarrassment to the Bureau.

The criminal informant program in the Philadelphia Division was rated as good and some worthwhile accomplishments have been obtained. Continued efforts must be given to developing criminal informants throughout the division. You should concentrate on improving the quality as well as the quantity of informants.

The increase in number of approved security informants since the last inspection shows a favorable trend. The Inspector reported that you have an aggressive program to develop informants in all clubs and sections of the Communist Party. The decrease in number of potential security informants indicates your office should intensify efforts to develop additional and productive potentials. You should continue to stress with all agents engaged in security work the importance of developing informants as well as the proper direction of those already developed.

Vigorous efforts should be made to locate the one missing Security Index subject and secure photographs of the 48 Security Index subjects without same.

The failure on the part of resident agencies to properly register mail could result in embarrassment to the Bureau. You must insure that all mail is properly transmitted. The increase in communications costs is an unfavorable trend. You must exercise stringent economy in all operations to maintain costs at a bare minimum.

Mr. Carl E. Hennrich

The average number of cases closed per agent per month was below the field average. You and your supervisory staff must insure that maximum productivity is attained. You should closely follow the instructions of the Inspector to insure that bulky exhibits and stop notice records are being properly maintained at all times.

The Inspector reported that all contacts made were highly favorable to both the Bureau and your office. It is also noted that you have made a number of speeches, met a number of local public officials, and have creditably represented the Bureau in your contacts.

You and the Assistant Special Agent in Charge should carefully review the suggestions and the instructions given you by the Inspector. They should assist you in your efforts to bring all phases of operations of the Philadelphia Division to the highest possible level of efficiency. The Bureau should be promptly advised when all delinquencies found during the inspection have been corrected.

Sincerely yours,

John Edgar Hoover  
Director

MEMORANDUM FOR MR. TOLSON

Yesterday I saw Special Agent in Charge Carl E. Hennrich, of the Philadelphia Field Division.

I discussed with Mr. Hennrich the fact that I noted in a number of classes of cases in his field division there were delinquencies in excess of fifteen per cent and that this should be corrected.

I likewise called to Mr. Hennrich's attention the fact that I noted there had been a drop of twelve per cent in convictions obtained and two per cent in fugitives apprehended during the first ten months of the current fiscal year, as compared with the same period of the previous fiscal year, and I indicated that this trend was undesirable, as it was imperative that we maintain our standard of accomplishments.

I also pointed out to Mr. Hennrich the fact that I noted that the Agents in his field division were closing but 8.93 cases per Agent per month, whereas the average for the field was 9.68 cases per Agent per month. I stated that the production of the Philadelphia Office was, therefore, below the average of the field and this should likewise be corrected.

I also called his attention to the fact that it had been necessary during the last six months to write twenty-four letters of censure to the personnel of the Philadelphia Field Division and that I considered this to be excessive. I pointed out that most of these letters of censure dealt with elementary defects and that there should be a stricter holding to responsibility by the Special Agent in Charge of the personnel of his office in all phases of work.

I also discussed with Mr. Hennrich my concern about the operation of our Resident Agencies and stated that there had been too many instances where there was indication that Resident Agents were not alert to their responsibilities and the interests of the Bureau and I wanted him to give this most careful attention in the Philadelphia Field Division.

I also advised Mr. Hennrich that I was concerned about the low quality of the male clerical personnel we were obtaining from the field for employment at the Seat of Government and that this indicated a lack of proper screening upon the part of interviewing officers in the field and this should be corrected immediately.

I pointed out the need for the utmost economy in the operations of the Bureau in view of the fact that if we continue to operate on the basis we are at the present time, we will be facing a deficit of \$400,000 in travel alone, starting with the next fiscal year, and that if this is not corrected by marked economy at all levels, I will be compelled to take drastic administrative action, such as the reduction of per diem from \$12.00 to \$9.00 a day and other economies which I would be reluctant to take, but that it is impossible for the Bureau to incur a deficiency and that I believe such a deficiency can be avoided if all officials and employees of the Bureau thoroughly realize the necessity for the utmost economy.

Very truly yours,

Philadelphia Letter of 5/13/57, attached, set out the results of the captioned conferences held in the Philadelphia area. There were 236 people, representing 144 agencies, at 4 conferences. It was apparent from the letter that the conferences were well organized and were successful.

In addition, Philadelphia SAC C. E. Hennrich is attending In-Service presently in Class #35, and the conferences were discussed with him. He said much of the success of the conferences was due to the work of SAs Walter V. McLaughlin and J. Herbert Foley. McLaughlin had the responsibility, under the SAC, of planning and organizing the conferences. Foley acted as an assistant to McLaughlin, and, on his own, prepared slides which were used effectively at all of the conferences and will be used henceforth at police training schools.

It is believed that an outstanding series of conferences was held in Philadelphia, and that credit was reflected on the whole office. The persons mainly responsible for the success of the conferences appear to be the SAC and SAs McLaughlin and Foley.

RECOMMENDATIONS:

1. That letter be sent to Philadelphia SAC C. E. Hennrich commending him and the Philadelphia Office personnel for the outstanding series of conferences.

2. That individual letters of commendation be sent to SAs Walter V. McLaughlin and J. Herbert Foley, for the reasons stated above.

Dear Mr. Hennrich:

I have reviewed the handling by the Philadelphia Division of the Civil Rights case involving [redacted] and my attention has been called to a delinquency for which you were responsible. The Philadelphia Division on May 31, 1957, submitted an investigative report and it was necessary to have this report revised inasmuch as it was lacking in clarity and the report was poorly organized. In view of the significance of this case you should have followed it closely to assure that an acceptable report was submitted and you were at fault for failing to do this.

In the future I shall expect you to carry out the responsibilities of your position with greater care and with closer attention to detail so that a delinquency of this type will not recur.

INSPECTION - PHILADELPHIA DIVISION  
J. GORDON SHANKLIN  
2/25/57 - 3/13/57

SUMMARY

OFFICIALS: Carl E. Hennrich, SAC since 10-24-56, (Norman H. McCabe prior SAC from 3-7-54, presently ASAC New York Division); Earl E. Brown, ASAC since 8-22-54.

LAST INSPECTION: 5/21 - 6/3/56

EVALUATIONS:

(1) PHYSICAL CONDITION AND MAINTENANCE . . . . . VERY GOOD

Location and security of office satisfactory. Office occupies all of fifth floor and major portion of fourth floor of Widener Building, with supply room in Federal Building, a short distance from office. Minor house-keeping delinquencies noted and corrected during inspection. Premises are well organized and well maintained. No delinquencies affecting safe operation of cars noted (30 of 108 assigned cars inspected).

(2) INVESTIGATIVE OPERATIONS . . . . . GOOD

Pending case load on 2-28-57 was 2,599; 2,072 active and 527 inactive. Office delinquency 5.45% - field average 6.91%. 7 cases on which no substantial investigation conducted during February, 1957, (3 awaiting other offices; 4 because of other expedite matters, all removed from delinquency status during inspection). There were 4 productive criminal classifications with delinquency above office average: Interstate Transportation of Stolen Motor Vehicle (ITSMV) 16 of 190 cases or 8.4%; White-Slave Traffic Act (WSTA) 5 of 48 or 10.4%; Interstate Transportation of Stolen Property (ITSP) 11 of 144 or 7.6%; Interstate Transportation of Gambling Devices (ITGD) 19 of 24 or 79.1% (reporting delinquency). regarding necessity for reducing delinquency at earliest possible moment to insure maximum accomplishments.

3 substantive errors found in 3 of 1,266 pending and closed files reviewed or .26% (low). 1 error was delay in forwarding check to FBI Laboratory; 1 was failure to properly prepare signed statement; 1 involved the furnishing of an incorrect auto registration number to an auxiliary office resulting in unnecessary investigation. Recommendation as to administrative action concerning personnel involved submitted separately.

There were no missed deadlines noted in 52 applicant cases reviewed; 15 missed deadlines noted in 103 fugitive cases reviewed or 14.5% (high); 4 missed deadlines noted in 50 civil rights cases reviewed or 8%.

Approved criminal informants increased from 47 to 48 or 2.1% since last inspection; potential criminal informants decreased from 169 to 146 or 3.75%. 2 essentially rural resident agencies have no approved criminal informant coverage but have potential criminal informants. Certain counties bordering on New York, New Jersey and Maryland have no informant coverage. Office has effective program of deleting nonproductive informants and stressing development of worthwhile potentials. Since last inspection, criminal informants have been responsible for location of 13 fugitives, including 1 Identification Order subject and solution of 1 bank robbery resulting in 4 arrests and recovery of approximately \$24,000 plus other worthwhile accomplishments. SAC instructed to continue efforts to develop criminal informants in all areas. Criminal informant program rated good.

Criminal statistical accomplishments of the Philadelphia Division for first 8 months of 1957 fiscal year, compared with same period of 1956 fiscal year, reflected increases of 183% in fines, savings and recoveries; 1% in automobiles recovered; decreases of 11% in convictions, 2% in fugitives apprehended. SAC of opinion that statistical accomplishments will increase in all categories.

Estimated Communist Party (CP) membership in territory covered by Philadelphia Division - 443. There are 644 subjects on Security Index (SI) one SI subject presently missing, 48 SI cards without photographs,

Memorandum to Mr. Tolson  
Re: Inspection - Philadelphia Division  
2/25/57 - 3/13/57

approved security informants increased from 52 to 55 or 5.76% since last inspection; potential security informants decreased from 10 to 8 or 20%. There are 23 panel sources and 37 confidential sources available. Approved security informants rated as follows: 10 - excellent; 27 - very good; 18 - good. Potential security informants rated as follows: 5 - good; 3 - fair. 27 of 55 approved security informants are members of the CP. Philadelphia Division has an aggressive program to develop informants in CP and all clubs and sections illustrated by the fact that since June, 1956, 5 informants have been placed in the CP as new members and 3 reinstated in the CP. Over-all rating - very good. SAC instructed to continue to emphasize necessity for developing quality as well as quantity of informants and proper direction of those already developed. SAC was instructed to intensify efforts to locate missing SI subject and secure photographs.

(3) ADMINISTRATIVE OPERATIONS . . . . . GCOD

Supervision of 2,599 pending case load as of 2-28-57 distributed - 122 SAC's desk (accounting); 369 ASAC's desk (fugitive and criminal informants); No. 1 Security Supervisor - 417; No. 2 Security Supervisor - 435; No. 3 Supervisor - 479 (applicant and miscellaneous criminal); No. 4 Supervisor - 777 (general criminal matters). No. 4 Desk appears overloaded. Recommendations for an additional supervisory desk submitted by separate memorandum.

Review of incoming mail from resident agencies on 2-27-57 reflected 6 instances of mail not being registered as required. Subsequent check on 2 later dates reflected all mail being properly registered. SAC instructed to insure all mail properly dispatched. Recommendations as to individual agents involved handled separately.

40 cases carried a pending inactive status contrary to Bureau regulations, ordered closed by Inspector and followed by administrative tickler (12 panel sources, 11 confidential sources, 17 sources of information).

72 form errors were found in 71 of 1,266 files reviewed or 6.03%. Responsibility divided 68.2% agents, 31.8% clerks. Need for more careful attention and additional training emphasized to supervisory staff and in all employee conferences.

Memorandum to Mr. Tolson  
Re: Inspection - Philadelphia Division  
2/23/57 - 3/13/57

Time in office for last 3 months ending 2-23-57 was 12.1% (below 15% standard). Agents production for same 3 months averaged 7.4 cases closed per month per agent (below field average). Total assigned case load per agent, including active and inactive cases, 16.39; active cases assigned per agent, 14. Stenographic production of 3.1 pages typed per hour slightly above field average of 3. Out of 3,000 index cards checked, 20 cards were found misfiled or .66% (high). Monthly communications costs exceeded Bureau's desired average for 3 months (November, December, January) by 19.3%. Travel costs for same 3 months were 8.6% lower in November, 16% lower in December, 10.3% higher in January than Bureau's desired average. SAC attributed increase in communications costs to applicant recruiting and deadline-type matters. SAC instructed to effect stringent economy in all operations.

Minor errors noted in maintenance of bulky exhibits and stop notice records (corrected during inspection). Change-over from index cards to inventory sheets in bulky exhibits not completed. SAC instructed to insure exhibits and stop notice records maintained in accordance with Bureau instructions and to complete change-over from index cards to inventory sheets as soon as possible.

(4) PERSONNEL MATTERS . . . . . VERY GOOD

All available personnel passed Inspector's examinations. Indoctrination and training of employees rated very good. All agents listed as qualified in testifying. Agents voluntary daily overtime for 3 months ending 2-23-57 averaged 2 hours 29 minutes, equitably distributed. For same period, SAC averaged 5 hours 23 minutes, ASAC 3 hours 31 minutes, No. 1 Security Supervisor 2 hours 36 minutes, No. 2 Security Supervisor 2 hours 29 minutes, No. 3 Supervisor 2 hours 23 minutes and No. 4 Supervisor 3 hours 23 minutes.

On 2-23-57 net personnel, including 1 steno and 1 typist replacement approved by Bureau was 253 - 152 agents, 11 special employees, 90 clerks; excluding 11 nonratio employees, clerk-agent ratio 43.4%. Request for 1 steno and 3 clerical replacements previously forwarded to Bureau and SAC contemplates request for 1 additional steno and 1 additional typist as replacements. Inspector of opinion replacements necessary. Clerk-agent ratio will be 52.1%.

Memorandum to Mr. Tolson  
Re: Inspection - Philadelphia Division  
2/25/57 - 3/13/57

5 agents not available for transfer - acute family problems - justified. SAC requested 6 additional agents. Inspector does not recommend, considers investigative personnel adequate but not excessive. Handled by separate memorandum. Morale appears high. SAC and supervisory staff alert to recommend personnel for commendation and incentive awards.

(5) CONTACTS . . . . . VERY GOOD

There are 17 approved SAC Contacts, all developed by previous SAC. All but 1 SAC Contact personally known to SAC Hennrich. He personally knows Governor of Pennsylvania, U. S. Attorneys, leading newspaper editors and publishers and other prominent officials and civic leaders throughout the Division. He has met a number of Federal judges. 88 police schools conducted during 1956 as compared to 60 in 1955. First 2 months of 1957, 23 schools have been held. 270 speeches made in 1956 compared to 300 in 1955, 76 made by former SAC McCabe, 5 by SAC Hennrich, 57 by ASAC Brown. 31 speeches made during January, 1957, 7 by SAC Hennrich, 5 by ASAC Brown. Speaking engagements being handled on a selective basis. 59 National Academy graduates in good standing and cooperative. Dean Moredith, Chief of Police, Towanda, Pennsylvania, removed from Directory of National Academy Graduates because of extremely poor judgment in furnishing information in article appearing in the Saturday Evening Post which was somewhat critical of the Bureau. Difficult situation exists with Pottsville, Pennsylvania, Police Department. SAC aware and only formal contact being maintained. Local, Federal and other officials contacted spoke very highly of FBI and Philadelphia personnel.

CONCLUSIONS:

1. SAC Carl E. Hennrich, CS-16 (\$13,545), nonveteran, not on probation:

Hennrich is a very competent Bureau executive having had varied experience in all types of Bureau work. He is a hard driving loyal worker. He is a very capable administrator and alert to protecting the Bureau's interests at all times. He has above-average judgment. He accepts responsibility and makes prompt decisions and handles personnel firmly but fairly. He insists upon results. He presents a very good

Memorandum to Mr. Tolson  
Re: Inspection - Philadelphia Division  
2/25/57 - 3/13/57

mature, businesslike appearance and while not an outstanding contact man, he represents the Bureau very effectively in this phase of its work. There were no substantive errors found on his desk. Form errors were average. Hennrich is qualified to continue as SAC at Philadelphia.

2. ASAC Earl E. Brown, GS-14, (\$10,750) nonveteran, not on probation:

Brown is an experienced ASAC having been assigned to Philadelphia in this capacity since August, 1954. He previously served as ASAC in the Albany and Miami divisions. He makes a very fine mature appearance and has an excellent personality. He is a very sincere, loyal employee. There were no substantive errors found on his desk. Form errors were average.

On June 20, 1956, Brown was censured by the Bureau for failing to detect that a copy of a report had not been designated for the U. S. Attorney. On December 6, 1956, he was censured because of lack of proper understanding between himself and an agent in connection with a scheduled appearance at a high school on November 21, 1956.

Brown was absent from his duties from 1-22 to 2-18-57 during which time he underwent surgery for a double hernia. He is now on limited duty for a period of 90 days. Brown is an extremely hard worker and thoroughly familiar with operations of the Philadelphia Division. He is well versed in Bureau policies and procedures and has capably performed the duties of SAC in the absence of the regular SAC. He is considered qualified by SAC Hennrich to serve as SAC in a small office. Inspector concurs in this recommendation.

RECOMMENDATIONS:

1. SAC Carl E. Hennrich - continue as SAC in Philadelphia. If approved, attached letter calling attention to major weaknesses and accomplishments noted during the inspection be forwarded to him.

Memorandum to Mr. Tolson  
Re: Inspection - Philadelphia Division  
2/25/57 - 3/13/57

2. ASAC Earl E. Brown - consider for reallocation to Grade GS-15 at such time as funds are available.

3. ASAC Earl E. Brown - consider for assignment as SAC of small office when an opening occurs.

4. Evaluations and recommendations concerning supervisory and other personnel submitted separately.

SUMMARY

This is submitted pursuant to the Director's instructions that we get to the bottom of the allegations that have been made against the Bureau by Assistant United States Attorney (AUSA) Mabel G. Turner. Also, concerning the Director's separate inquiry, this is to advise that the two FBI reports in question have been studied, and it has been established that they are in substance the same and differ only as to form. Five points are involved, each of which has been summarized below under the appropriate heading.

*Carl F. Hennrich*  
 (1) Report of SA Verica dated 5-31-57: SA Joseph A. Verica, Philadelphia, conducted a Civil Rights investigation concerning allegations of brutality by officers of the Philadelphia Police Department and submitted an investigative report dated 5-31-57. Report lacked clarity and was poorly organized, and upon review by Bureau, Philadelphia was instructed to prepare a properly organized report and submit explanations concerning personnel responsible. Corrected report dated 6-18-57 submitted by Philadelphia containing only changes of form. AUSA Turner, who first said corrected report was weaker than original version, has compared reports and now agrees that new report is much better organized and very helpful. Censure being recommended for SA Verica, SA  who assisted in preparing report, Relief Supervisor James T. Mullan, Jr., who approved report, and SAC Hennrich for failure to properly closely follow case to insure proper report submitted.

b6  
b7C

*Earl F. Brown*  
 (2) Allegations by AUSA Turner and Agent Verica's replies. Turner complained to our Philadelphia Division concerning the handling of this investigation by SA Verica. She alleged (a) she was unable to contact Verica by phone. Verica states when he learned Turner had called, he immediately returned her call. Turner later admitted that in her attempt to contact Verica, she did not leave a message. Verica identified her.

the SAC, Verica immediately returned her call. (b) Turner alleged Verica told her the case should not be prosecuted and twice said the Government did not have a case and made such a statement to Acting USA Fogwell; that Verica almost convinced Chief Assistant Criminal Attorney Joseph L. McGlynn, Jr., the case should not be presented to a grand jury; that Verica was overheard talking with two or three AUSAs against this case. Verica denies he attempted to dissuade Turner or anyone from prosecuting this case. He also denies that he made any statement to Turner or anyone in the USA's office that the Government did or did not have a case. Verica called Turner's attention to all phases of this matter, including victim [redacted] reputation, differences between his signed statement and other information available and noted there were other potential witnesses to be interviewed since only a preliminary investigation had been conducted before presentment to the grand jury. Verica states that on the date this matter was being presented to the grand jury [redacted] he discussed it with Turner and AUSA McGlynn and when Turner departed he continued discussing it with McGlynn. Verica recalls that during this discussion three AUSAs visited the grand jury anteroom but he does not recall discussing the case with any of the AUSAs except McGlynn. On 6-26-57, McGlynn advised ASAC Brown that he felt Turner's sole purpose in presenting the case was to obtain an indictment and that she had no interest in the facts. McGlynn advised Turner had accused him of attempting to "scuttle" this case. (c) Turner stated she asked if the proprietor of the bar had been arrested and that Verica told her if she desired this information, she must write a letter and request it. Verica advises he did not at any time tell Turner she would have to write a letter requesting this information or any investigation in this case. (d) Turner alleged Verica offered to conduct any additional investigation but she declined as she felt he would work against the interest of the Government. Verica states he offered to conduct any additional investigation desired. Turner declined and made no further comment. Verica had previously reported that Turner stated on 5-9-57, she felt the investigation of this case came to an abrupt halt when it was determined that victim [redacted] had lied about his association with a woman. Verica immediately challenged Turner and told her Bureau had no interest one way or the other and our investigations were conducted in an impartial manner. (e) Turner alleged Verica remained with the police while case being presented to grand jury. Verica states while in grand jury anteroom with another EA, Verica merely extended morning greetings to two police

officers who are not subjects and engaged in no other conversation with them.

(f) Turner alleged Verica insisted the police officers should be called before the grand jury. Verica advises that on 5-3-57, Turner, when first discussing the case, told him she intended to subpoena the subject police officers. On 6-21-57, Turner told ASAC Brown she had been instructed by the Department not to have subjects testify before the grand jury. (g) Turner alleged that [redacted]

Despite recommendation by SAC, Philadelphia, that this matter be handled on a local level, there is attached a memorandum to Deputy Attorney General Rogers with copy for Olney setting forth allegations of Turner and answers of Verica. victim [redacted] Furia made the accusation that the U. S. Attorney's Office had leaked information to the Philadelphia Police Department. USA Wood contacted Furia, who alleged further that he did not intend to blame the USA's office but believed that FBI Agents had leaked the information to the police. Philadelphia has been instructed to interview Furia and pin down his allegation, and after analyzing his comments, submit appropriate explanations and recommendations to the Bureau.

(4) Delay by Philadelphia in Submitting Explanations: When AUSA Turner's allegations first came to the Bureau's attention, the Philadelphia Division was instructed, <sup>on 6-21-57</sup> to obtain the full facts and submit memoranda and recommendations to the Bureau. The Philadelphia Division submitted partial information, and it became necessary for the Bureau to follow up the Philadelphia Office. The desired information was not received until the morning of 6-28-57. Supplemental information received in Investigative Division the morning of 7-1-57, with additional inquiry by the Director concerning whether the old and new Verica reports were same as to substance. Censure being recommended for ASAC Brown (SAC Hennrich currently on annual leave) for failure to more closely supervise this matter and more expeditiously submit information to the Bureau.

(5) Analysis of Reports: Pursuant to the Director's instructions, SA Verica's report of 5-31-57, was compared with his revised report of 6-18-57, and a close study reflects that these reports are the same as to substance, but the form has been changed in the interest of clarity and better organization. AUSA Turner concurs that new report is better organized and very helpful. Report of 6-18-57 furnished to Olney; prior report was not disseminated by Bureau.

Dear Mr. Hennrich:

In connection with the Federal Reserve Act investigation involving [redacted] it has been noted that certain money which was recovered in connection with this case was incorrectly counted and a receipt for an amount in excess of the sum actually received was furnished outside individuals. An agent of your division was responsible for this mistake and since he was operating under your supervision you should have made certain that appropriate precautions were adopted to prevent such an embarrassing error.

In any similar situation in the future I shall expect you to take appropriate action to insure an accurate count so that it will not again be necessary to direct criticism of this nature to you or to your subordinates.

There are enclosed herewith affidavits submitted by Special Agents DAVID E. WALKER, JOSEPH A. WELCH, JAMES A. WALSH, FRANK V. MITT, and Special Agent in Charge C. D. KENNEDY regarding their knowledge of the recovery of \$22,138.00 from [REDACTED] of Havertown, Pa. This was originally reported to the Bureau as recovery of \$22,633.00. There is also enclosed a joint statement prepared by Special Agent DAVID E. WALKER and Captain DAVID H. ROBERTS of the Philadelphia Police Department and Lieutenant [REDACTED] of the Philadelphia Police Department, setting forth details as to the manner in which the money was counted at the home of [REDACTED] which resulted in their arriving at the figure \$22,633.00.

b6  
b7C

A review of all these documents reflects that there is no question but that the money was erroneously counted at the home of [REDACTED] by SA DAVID E. WALKER, Captain DAVID H. ROBERTS of the Philadelphia Police Department and Lieutenant [REDACTED] of the Philadelphia Police Department. It appears that the error was actually that of Lieutenant [REDACTED] and that he mistook a packet of five dollar bills to be ten dollar bills, and placed a tag thereon indicating that the packet contained one thousand dollars, whereas it only contained five hundred dollars. The other error of five dollars involved a miscount, apparently resulting from two five dollar bills sticking together.

b6  
b7C

The facts regarding the recovery of these funds were furnished to the press in Philadelphia in a joint statement made by the FBI and the Philadelphia Police Department at the Marconi Savings and Loan Association at approximately 7:15 p.m. 7/28/57.

SEE PAGE THREE FOR RECOMMENDATIONS OF INVESTIGATIVE DIVISION.

DIRECTOR, FBI

8/2/57

At that time, the subject had been placed under arrest by the Philadelphia Police Department, the statement had been obtained from him, and the money had been recovered. The press were informed that recovery in amount of approximately \$22,633.00 had been made. It was stated that this figure was subject to final verification. In this connection, it is noted that the press has utilized figures of \$22,600 and \$22,000 as recovery made. On August 2, as a result of a statement made by the United States Attorney after he had authorized the turning over of funds to the United States Marshal, the press carried the figure of \$22,138.00 with no further comment.

It should be noted that at the inception of this case, police arrived at the scene well ahead of Bureau Agents, and investigation had been initiated prior to the arrival of Bureau Agents. Upon the arrival of FBI Agents, a fully cooperative investigation was conducted with Agents and Detectives working jointly on covering all leads, and information as developed was freely exchanged throughout the day. Chief Inspector ALBERT TOLMER (IA) of the Philadelphia Police Department was the ranking officer at the bank, and I was in command for the FBI. At the time information was received as to the possibility of the location of money at the home of [REDACTED] SA DAVID E. WALKER was the only Agent available who was not engaged in other interrogations, and he was dispatched together with Captain ROBERTS and Detective KROEN to conduct the investigation. No embarrassment has resulted to the Bureau from this incident. Very favorable publicity from radio and other news media has resulted from the investigation.

There can be no doubt that there was an error in counting the money at the home of [REDACTED] which should not have occurred.

b6  
b7c

RECOMMENDATION:

It is recommended that a letter of censure be directed to SA DAVID E. WALKER for his failure to assure that the count was accurate at the time it was made at the home of [REDACTED]

It is recommended that a letter of censure be directed to the Special Agent in Charge at Philadelphia in connection with his over-all responsibility for the handling of this case in which this error occurred.

## RECOMMENDATIONS OF INVESTIGATIVE DIVISION

### Details:

This matter involved an investigation conducted by our Philadelphia Office wherein subject, manager of the above association, faked a bank robbery on 7/28/57 and started a fire in vault and wounded himself to substantiate story. Later he confessed to Bureau Agents that he had taken over \$22,000 from above association on 7/27/57 and faked robbery to cover his theft. When information was received that the loot was secreted under pretext in the home of [redacted] relatives of the subject, SA Walter was assigned by the SAC to accompany two police officers to recover the money. Money obtained from [redacted] counted by SA David E. Walker and two police officers and the total they arrived at amounted to \$22,633. Subsequent count by Bureau Agents developed correct amount \$22,138.

b6  
b7C

On first count of money, SA Walker and two police officers gave receipt to [redacted] for incorrect amount of \$22,633. Subsequently, after money was recounted, a corrected receipt was given to [redacted] by SA Walker and two police officers for the correct amount of \$22,138. At this time, they ascertained the original receipt reflecting the incorrect amount of \$22,633 was turned over to subject's attorney, Robert Boyd, Philadelphia, who is currently on two weeks' vacation at unknown location. Philadelphia will attempt to retrieve original receipt upon return of subject's attorney. Philadelphia advised subject's attorney is a reputable attorney who has been cooperative during this investigation and instructed subject to cooperate fully with Bureau Agents.

Newspaper release made jointly by Philadelphia PD and our Philadelphia Office, giving incorrect amount, on 7/28/57. On 8/2/57, USA authorized the turning over of the funds to U. S. Marshal and the press carried figure of \$22,138 with no further comment.

### Explanation:

Philadelphia advised no question the money was erroneously counted when first recovered. Error believed result of mistaking a package of five-dollar bills for ten-dollar bills, which package counted to be \$1,000, whereas it only contained \$500. The other error of \$5 believed resulting from two five-dollar bills sticking together.

### RECOMMENDATIONS (2):

1. SA David E. Walker - Philadelphia has recommended a letter of censure be directed to SA Walker for failure to insure that the count was accurate at the time it was initially made. The Investigative Division concurs with this recommendation.

2. SAC Hennrich - SAC, Philadelphia, recommends letter of censure be directed to the SAC, Philadelphia, in connection with his over-all responsibility for the handling of this case in which this error occurred. Investigative Division concurs with this recommendation. (It is noted that SAC Hennrich afforded this case on-the-scene supervision). In connection with instant dereliction it is felt that had Hennrich assigned two Agents to recover the money instead of one, the miscalculation might have been avoided.

Philadelphia, Pa.  
August 2, 1957

I, CARL E. HENNRICH, being duly sworn state as follows:

On the afternoon of July 28, 1957, I was present at the Marconi Savings and Loan Association, Broad Street and Passyunk Avenue, when Special Agent DAVID E. WALKER, Captain DAVID H. ROBERTS of the Philadelphia Police Department, and Lieutenant [redacted] of the Philadelphia Police Department returned to the bank with a package which they stated contained money recovered from the home of [redacted] of Havertown, Pa., and which had been given to them to hold by the subject, [redacted]. These officers stated that the money had been counted in the presence of [redacted] and the count had totaled \$22,633.00. They stated that a receipt had been given to the [redacted] for the package naming this amount. It was stated that the money should be recounted for final verification. Thereafter, Captain ROBERTS and myself left the room and the package remained in the custody of Special Agent DAVID E. WALKER and Lieutenant [redacted] for a period of approximately 30 minutes. During this period of time, it was agreed that the FBI would take custody of the money. Thereafter, I accompanied Special Agent DAVID E. WALKER from the bank to my office in the Widener Building. WALKER had in his possession the wrapped package. Special Agent FRANK V. HITT also accompanied WALKER. When arriving at my office, WALKER was instructed to seal the package which he did, initialed it, and it was placed in the office safe. It was not removed from the safe until the morning of July 30th, when it was removed by me and given to WALKER, who broke the seal in my presence and that of Special Agent HITT. The money was not counted at that time. The purpose of breaking the seal in my presence was so that I might note the writing on an envelope placed on the outside of the box, presumably written by [redacted]. Thereafter, Special Agent HITT accompanied WALKER from my office to arrange for a final verification count of the money. I was thereafter notified that the count had disclosed a total of \$22,138.00, and that the difference between this figure and the figure previously indicated by WALKER, ROBERTS, and [redacted] apparently resulted from two five-dollar bills having stuck together

b6  
b7C

when the original count was made, plus the fact that one package of 100 five-dollar bills had been labeled as \$1,000.00 by Lieutenant [ ] he at that time erroneously believing that they were ten-dollar bills.

b6  
b7C

Upon being informed of the difference in the total count, at the suggestion of Special Agent WALKER, I instructed Supervisor HITT to cause a search to be made of the Agents who had access to the money following the breaking of the seal on the morning of July 30th and of the room in which the money was being counted, in order that there would be no possibility of the money having been mislaid in some manner.

SAC, PHILADELPHIA  
PHYSICAL CONDITION

This is to advise the Bureau that on September 4, and again on September 5, I was examined at the Naval Hospital in Philadelphia as the result of a swelling on the lower left side of my neck.

After examination, X-ray, and surgical consultation, Dr. J. S. SUESS advised that the swelling had been diagnosed as a fatty tumor, non-malignant in character. He sees no immediate need for surgery.

He recommended that the tumor be watched and if there is any marked increase in size or if it becomes irritable that further consideration be given to its removal.

For the Bureau's information, copies of the consultation sheets are attached.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI  
ATTENTION: PERSONNEL SECTION

DATE: September 28, 1957

FROM : SAC C. E. HENNRICH

SUBJECT: ASIAN FLU VACCINE PROGRAM

In connection with the acquisition of Asiatic Flu Vaccine, special arrangements were made with Mr. THEODORE E. ERSLY of the National Drug Company, 4663 Stenton Avenue, Philadelphia, Pa., for the procurement of five thousand cc's of Asiatic Flu Vaccine. Mr. ERSLY, through his assistant, Mr. RAYMOND SHAFFER, who is Supervisor of State and Government Sales, arranged to see to it that the Bureau's requirements were met in spite of very heavy demands upon the National Drug Company for this vaccine. Special Agents JAMES W. GOING and EDWARD A. SMITH maintained very close liaison with both ERSLY and SHAFFER during our procurement of this vaccine in order that the Bureau's program could be accomplished at the earliest possible time. Due to the heavy demands which were being made upon both ERSLY and SHAFFER, they were during the greater portion of the period of our acquiring this vaccine holding themselves strictly incommunicado within the National Drug Company, and the switchboard refused to put calls through to them. It was necessary for both GOING and SMITH to exercise considerable tact in order to be able to maintain contact with these gentlemen.

In connection with the program of innoculating personnel of the Philadelphia office, as the Bureau has been advised, Captain CHARLES L. FERGUSON of the U. S. Naval Hospital made arrangements for a physician and a Corpsman to come to the Philadelphia office to administer the innoculations. Mrs. H. LEE LANDSBURG, R.N. assigned to the Philadelphia office, worked long hours and did an excellent job in organizing the plans for the administration of the vaccine in the nurse's office, and assisted the Naval doctor and Corpsman in administering the vaccine.

## RECOMMENDATION:

It is recommended the Bureau address letters to THEODORE E. ERSLY and RAYMOND SHAFFER of the National Drug Company, thanking them for their cooperation in making the vaccine available to the Bureau.

It is recommended that letters of commendation be addressed to SAS JAMES W. GOING and EDWARD A. It is also recommended that a letter be directed to R.N. H. LEE LANDSBURG for the excellent work which she did both in the planning and in the carrying out of the administration of the Asiatic Flu Vaccine to the personnel of the Philadelphia office.

On 7/28/57 [redacted] of the Marconi Savings and Loan Association, Philadelphia, started a fire in the building association vault and wounded himself in an effort to simulate a robbery of the building association. He later confessed that he had taken over \$22,000 from the association on 7/27/57 and faked the robbery to cover his theft. It was ascertained that he left the loot under pretext at the home of relatives, [redacted]

SA (A) Walker was assigned by SAC Hennrich to go with two police officers to the [redacted] home and recover the money. While at the [redacted] home on 7/28/57 the money was counted by SA (A) Walker and a police officer who arrived at a total of \$22,633. A receipt was given [redacted] for that amount and the money taken to the Philadelphia Office and placed in the SAC's safe.

The following day it was recounted by two other agents and the correct total found to be \$22,138. SA (A) Walker has explained that the discrepancy of \$495 was apparently <sup>made</sup> by mistaking a package of \$5 bills totaling \$500 for \$10 bills and erroneously counting the package as totaling \$1000. There was also a failure to count one \$5 bill which is believed to have resulted from two bills sticking together.

A corrected receipt has been furnished [redacted]. The original receipt reflecting the incorrect amount had been turned over to the subject's attorney who is currently on vacation at an unknown location. Upon his return to Philadelphia, the Philadelphia Office will attempt to retrieve the erroneous receipt. The SAC, Philadelphia, has advised that the attorney is reputable and has cooperated during this investigation and instructed the subject to cooperate fully with Bureau Agents. A press release was made by the Philadelphia Office on 7/28/57 giving the incorrect amount. On 8/2/57 the loot was turned over to the U. S. Marshal pursuant to authorization of the U. S. Attorney and at that time the press carried the correct amount of \$22,138 with no comment.

SENT DIRECTOR

12/5/57

SAC Hennrich has recommended that SA (A) Walker be censured for his failure to insure that the initial count of the loot was accurate. He has also recommended a letter of censure for himself because of his over-all responsibility for the handling of this case in which the error occurred. The Investigative Division concurs in these recommendations.

As a result of a similar miscounting of recovered money by Bureau Agents instructions are being issued to the field requiring that such counts of recovered money be made independently by two Bureau Agents in order that their totals may be compared and any errors discovered and corrected.

RECOMMENDATIONS OF THE ADMINISTRATIVE DIVISION:

1. It is recommended that SA (A) Walker be censured and placed on probation for his dereliction in this matter.

2. That SAC. Hennrich be censured for his over-all responsibility.

PERMANENT BRIEF OF SA (A) WALKER'S PERSONNEL FILE IS ATTACHED.

PERSONAL

Mr. Carl E. Hennrich  
Federal Bureau of Investigation  
Philadelphia, Pennsylvania

Dear Mr. Hennrich:

I have reviewed the information submitted by you regarding [redacted] in the Philadelphia Office, and I note that she has had a record of repeated tardinesses since her entry on duty last April. It appears that poor judgment was exercised in her case in that a majority of her tardinesses were excused in spite of the excessive number of them.

b6  
b7C

Certainly an employee who fails to arrive for work on time on as many occasions as did [redacted] has not been sufficiently impressed with the need for punctuality in reporting for duty and after a proper warning further late arrivals should not have been excused unless unforeseen circumstances had clearly prevented her from arriving on time at the office.

[redacted] attendance record should be closely supervised in the future and it is expected that more careful attention will be given to all employees of your office with regard to tardinesses in order that unnecessary late arrivals may be eliminated.

Very truly yours,

J. Edgar Hoover

By letter 2/12/58 the SAC, Philadelphia calls attention to the tardiness record of captioned employee. From the date of her entry on duty, 4/1/57, to 12/31/57 she was tardy 8 times, 7 of which were excused. On 12/6/57 she arrived for duty at 10:05 a.m., explained that her alarm clock failed and this tardiness was unexcused. On 1/14/58 she was 2 minutes late, gave as her reason a bus delay and her tardiness was excused. On 1/15/58 she telephoned the Chief Clerk at 8:15 a.m. and requested sick leave for 3 hours stating she was ill. She indicated she was confused as to what time she should come to work if the 3 hours of sick leave were granted since she wondered whether she should sign in before or after her lunch hour. The Chief Clerk told her that when it was necessary for her to take sick leave she should report for duty as soon as she felt well enough to work. She reported at 12:20 p.m. that date.

On 1/16/58 she failed to report for duty by 9:00 a.m. and when the leave clerk called her at her home at 9:35 a.m.  stated a fuse had blown in her house, her clock was 2 hours slow and she was just leaving home for work. She reported at 10:00 a.m. On 1/22/58 she was 8 minutes tardy, giving as her reason that she had overslept.  This tardiness was excused and she made up the time. She was scheduled for Saturday duty on 1/25/58 and was 45 minutes late, reporting for work at 9:15 a.m. and again explained that she had overslept. This tardiness was unexcused. However, on this date she voluntarily worked until 10:05 p.m. in order to handle an urgent matter and she did not claim compensatory leave.

In addition, it was necessary to discuss her sick leave record with her on 3 occasions during 1957 and as a result her promotion to grade GS-3 was delayed. However, her attendance record subsequently improved.

and she was promoted to grade GS-3, 12/15/57.

SAC Hennrich states that he had a very serious talk with [redacted] on Saturday 1/25/58, pointing out that the Bureau cannot and will not tolerate tardiness of the type for which she had been responsible. She was apparently impressed and her attitude was good as indicated by the fact that she voluntarily worked until 10:05 that evening. The SAC considers [redacted] to be somewhat immature and he gathers that she has had a minimum of parental discipline during her formative years. She has found it difficult to submit to the discipline required of her as an FBI employee but she is intelligent and her production record is satisfactory. SAC Hennrich states that on the basis of her record he feels the Bureau would be justified in requesting her resignation but while he knows that she will require close supervision he is inclined to recommend against her separation at this time because she is progressing and thinks that in time she will mature and become a good employee.

The Time and Attendance Manual provides that following the second and third unexcused tardiness in any calendar year the employee concerned should be warned that administrative action will be taken on a fourth such tardiness within the year and the fourth unexcused tardiness within a calendar year should be reported to the Bureau with a recommendation that the employee be considered for a 3-day suspension without pay. It should be noted that all of the tardinesses with which [redacted] was charged during the calendar year 1957 were excused with the exception of one and therefore, she is not subject to the disciplinary action provided in the Time and Attendance Manual.

RECOMMENDATION OF THE ADMINISTRATIVE DIVISION:

It is recommended that a letter of censure be directed to [redacted] because of her record of tardiness since she entered on duty and that she be informed that it will be necessary for her to eliminate such tardinesses if she is to continue in the Bureau's service.

1. Recommend censure and probation for [redacted] *V. C. E.*
2. Recommend letter to SAC Hennrich pointing out his extreme leniency in excusing tardinesses for [redacted] *SAC Hennrich*
